Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 24th August, 1927 :—

L. A. BILL No. 39 OF 1927.

A Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for the purpose hereinafter appearing; It is hereby enacted as follows :— XLV of 1860. V of 1898.

Short title.

1. This Act may be called the Criminal Law Amendment Act, 1927.

Insertion of new section 295A, in Act XLV of 1860.

2. After section 295 of the Indian Penal Code the following section shall be inserted, namely :— XLV of 1860.

Other actions intended to insult religion or outrage religious feelings of any class.

"295A. Whoever by words, either spoken or written, or by signs, or by visible representations, or otherwise, intentionally insults or attempts to insult the religion, or intentionally outrages or attempts to outrage the religious feelings, of any class of His Majesty's subjects shall be punished with imprisonment of either description for a term which may extend to two years or with fine, or with both."

Amendment of Act V of 1898.

3. In the Code of Criminal Procedure, 1898, the following amendments shall be made, namely :— V of 1898.

(*i*) in sub-section (*1*) of section 99A, after the words "His Majesty's subjects" the words "or which is intended to insult the religion or outrage the religious feelings of any such class" shall be inserted, and after the figures and letter "153A" the words, figures and letter "or section 295A" shall be inserted ;

(*ii*) in section 196, after the word, figures and letter "section 294A" the words, figures and letter "or section 295A" shall be inserted :

(*iii*) in the Second Schedule, after the entry relating to section 295 of the Indian Penal Code, the following entry shall be inserted, namely :— XLV of 1860.

295A ...	Insulting the religion or outraging the religious feelings of any class.	Shall not arrest without warrant.	Warrant	Not bailable.	Not compoundable.	Imprisonment of either description for 3 years, or fine, or both.	Presidency Magistrate or Magistrate of the first class";

and

(*iv*) in the same Schedule, for the entries in the third fourth, fifth, sixth and eighth columns relating to section 296 of the Indian Penal Code, the following entries shall be substituted, respectively, namely :— XLV of 1860.

"May arrest without warrant	Summons ...	Bailable ...	Not compoundable.	Presidency Magistrate or Magistrate of the first or second class"

STATEMENT OF OBJECTS AND REASONS.

The prevalence of malicious writings intended to insult the religion or outrage the religious feelings of various classes of His Majesty's subjects has made it necessary to examine the existing provisions of the law with a view to seeing whether they require to be strengthened. Chapter XV of the Indian Penal Code, which deals with offences relating to religion, provides no penalty in respect of writings of the kind described above. Such writings can usually be dealt with under section 153A of the Indian Penal Code as it is seldom that they do not represent an attempt to promote feelings of enmity or hatred between different classes. It must be recognized, however, that this is only an indirect way of dealing with acts which may properly be made punishable themselves, apart from the question whether they have the further effect of promoting feelings of enmity or hatred between classes. Accordingly it is proposed to insert a new section in Chapter XV of the Indian Penal Code, with the object of making it a specific offence intentionally to insult or attempt to insult the religion or outrage or attempt to outrage the religious feelings of any class of His Majesty's subjects. Certain amendments are also proposed in the Code of Criminal Procedure in pursuance of the object of the Bill.

(27), dated the 7th June 1927, on the report of the Tariff Board (Cotton Textile Industry Enquiry).

2. It is considered undesirable to retain the 2½ per cent. *ad valorem* duty on printing machinery and material when the duty on other machinery is being removed. It is accordingly proposed to remove the duty on the articles included in Item 54 of the Import Tariff Schedule, as well as the duty on articles included in Items 51, 51-A and 51-B.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 18th August, 1927 :—

L. A. BILL NO. 37 OF 1927.

A Bill further to amend the Indian Tariff Act, 1894, in order to safeguard the manufacture of cotton yarn in British India.

WHEREAS it is expedient further to amend the Indian Tariff Act, 1894, in order to safeguard the cotton textile industry in British India against competition in cotton yarn produced under industrial conditions which enable such yarn to be produced at a cost below that at which it can be produced in British India ; It is hereby enacted as follows :— VIII of 1894.

Short title.

1. This Act may be called the Indian Tariff (Cotton Yarn Amendment) Act, 1927.

Amendment of of the Second Schedule to Act VIII of 1894.

2. (*1*) In Item No. 44 of the Second Schedule to the Indian Tariff Act, 1894, after the figure and words " 5 per cent. " the figure and words " or 1½ annas per pound, whichever is higher " shall be added. VIII of 1894.

(*2*) The amendment made by sub-section (*1*) shall have effect up to the 31st day of March, 1930.

STATEMENT OF OBJECTS AND REASONS.

The Tariff Board which was appointed to inquire into the depression in the cotton textile industry reported that, owing to the double shift working rendered possible by the night work of women, the Japanese mills producing cotton yarn possessed an unfair advantage over the Indian mills, and that this advantage amounted to 10 per cent. of the selling price at the time the Report was submitted. This advantage is only partially neutralised by the existing 5 per cent. duty. In the opinion of the Board, the Japanese mills will retain their unfair advantage until June 30th, 1929, when the night work of women will be prohibited by law.

2. More than half the total imports of yarn are of counts from 31*s* to 40*s* and about 80 per cent. of the imports of these counts are from Japan. The Board found that the unfair advantage of a mill spinning an average of 20*s* was 10 pies per pound, if a reasonable return on capital was taken into account, and of a mill spinning an average of 32*s* 16·55 pies per pound. On the basis of these figures, a duty of one and-a-half annas a pound on counts from 31*s* to 40*s* and a duty of one anna a pound on lower counts would suffice to neutralise the unfair competition of the Japanese mills. The imports of counts of yarn below 31*s* are, however, less than 5 per cent. of the total imports, and for administrative reasons it is not considered advisable to vary the rate of duty according to the count. It is, therefore, proposed in the Bill that up to the 31st March, 1930, the 5 per cent. duty on cotton yarn should be subject to a specific minimum of one and-a-half annas a pound. The effect will be that duty will be leviable on all imported yarn at the rate of one and-a-half annas a pound, unless the value exceeds Rs. 1-14-0 a pound, when the duty will be levied at five per cent. *ad valorem*.

3. For protective purposes, a specific duty is preferable to an *ad valorem* duty, the amount of which varies with the price and is highest when protection is least needed and lowest when the industry most requires assistance. It is for this reason that the specific minimum duty of one and-a-half annas a pound has been proposed and not an increase in the *ad valorem* rate.

4. The night work of women in the Japanese mills will terminate, it is expected, on the 30th of June, 1929, but yarn produced under double shift conditions will still be on the market for some months afterwards. For this reason, it is proposed that the specific minimum duty should continue in force until the 31st March, 1930.

RESOLUTION—No. 642T.R.

READ—

The Final Report on the Survey and Settlement Operations in the district of Bankura.

Letter No. XXV-4—753, dated the 17th November 1926, from the Director of Land Records and Surveys, Bengal, submitting the report.

Bankura is one of the poorest and most backward districts in the province. A distinctive feature of the population is the preponderance of the Santhals and other aboriginal tribes in the western part of the district. Physically also this tract has a distinctive character showing the beginning

of those rocks and dense forests which overspread the Sonthal Parganas and Chota Nagpur. The settlement of the district was taken up largely with a view to protect these primitive tribes who were being ousted from their lands. The Bengal Tenancy Amendment Act of 1918 (Act II of 1918) imposes restrictions on the alienation of land by the Sonthals and Bhumijes, but the Act in question was passed too late to save a large proportion of these aborigines whose lands had already passed into the hands of Bengali Mahajans. Even in the subsequent period it has hardly had the effects anticipated from it, partly because it was not accompanied by the other reforms advocated in Mr. McAlpin's report which led to the passing of the Act, viz., the establishment of grain *golâs* to lend rice instead of money to the Sonthals and the regular appointment of Sonthal-knowing officials. The story is a tragic one, but the report of Mr. F. W. Robertson, I.C.S., the Settlement Officer, shows that the ruin of the Sonthals is mainly due to the fact that owing to their illiteracy, improvidence and simplicity they can never cope with their more intelligent and shrewd neighbours with a higher standard of culture and literacy. Those who lost their lands either migrated to other districts or were reduced to the status of bhagidars and under-raiyats.

2. The area of the district is 2,617 square miles of which about one-fifth is covered by jungle. The population according to the Census of 1921 is 10,19,941 or 385 souls per square mile against the total of 11,38,670 or 434 souls per square mile according to the Census of 1911. This alarming decrease of 10 per cent. of the population in course of a decade has been attributed partly to the influenza epidemic of 1918-19 which caused unprecedented loss of life, but mainly to malaria. The ravages of this disease are certainly increased by the extremely insanitary condition of the villages and the Governor in Council trusts that with the introduction of the Rural Public Health Organisation scheme it will be possible to effect an appreciable improvement in this direction.

3. Of the total population, 8,05.170 souls or 79 per cent. depend upon the land, 67 per cent. being actual cultivators and their dependants. But of the total area of the district only 47 per cent. is culturable, and even this moiety suffers so much from drought and unequal distribution of rainfall that a partial or total failure of crops occurs every third or fourth year. Even in a normal year, the Settlement Officer calculates that the total yield of paddy is barely sufficient to provide 84 per cent. of the population with two meals a day. The improvement of the economic position of the district seems to depend on the reafforestation of the higher plains and the provision of ample irrigation facilities for the remainder. Both subjects have been receiving the anxious consideration of the departments concerned, and also of various local associations. Since the settlement operations were completed many co-operative credit societies have been formed for the excavation and maintenance of irrigation tanks and wells. The Irrigation Department of Government have just opened a new division at Bankura with a wholetime Executive Engineer. The Governor in Council hopes that the joint and concerted endeavours of these two progressive departments will not take long to effect a real improvement of the situation. In the meantime arrangements have been made by the Agriculture and Industries Department to start co-operative grain *golâs*.

4. Though not a single plot of land has been recorded as proprietor's private land under chapter XI of the Bengal Tenancy Act it is surprising to find that very nearly half of the area of the district is in direct possession of the landlords and the other half is held by the cultivating raiyats and under-raiyats, the latter holding only 4 per cent. of the area 16 per cent. of the area is held by raiyats on produce rent and 9 per cent on mixed cash and produce rent, *i.e.*, one-fourth of the whole area of the district is held on produce rent in some shape. This abnormal disparity in the distribution of land and the large proportion of produce rent tenancies are the direct effects of alienation of lands by the aborigines who are now reduced to the status of mere labourers. This state of things is undoubtedly wrong, but it is probably too late to devise any practicable remedy.

5. Over 10 per cent. of the area is held by the raiyats at fixed rates and most of the under-raiyats have got occupancy rights by custom and even fixity of rent. The incidence of rent of occupancy raiyats is only Rs. 1-12 7 per acre. This is perhaps the lowest on record in Bengal, but it is partly due to the general unproductivity of the soil.

6 Traverse survey began in 1914-15, but the operations were stopped on account of the great European War and restarted in 1917-18. They were completed in the year 1924-25. The subdivision of Asansol in the district of Burdwan was included in the operations to meet the wishes of the Mining and Geological Institute for accurate 4" maps of the coal area. The total cost of the operations was estimated at Rs. 28,62,218, but the Settlement Officer is to be congratulated on managing to complete the operations at a cost of Rs 28,39,894 despite the increase of prices due to the war Recovery of costs was satisfactory and only about half per cent. of the recoverable amount had to be remitted. The Governor in Council desires to place on record his high appreciation of the services of Mr. F. W. Robertson, I.C.S., who inspite of many difficulties organised and carried through the operation in this back ward and inhospitable district with efficiency. The good services rendered by the Assistant Settlement Officers specially commended by the Settlement Officer will be brought to the notice of the Appointment Department.

By order of the Governor in Council,

F. A. SACHSE,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1927.

[NOTE.—On the average of the five years ending 1925-26, the area under jute in Assam represents 5.1 per cent. of the total area under jute in British India.]

The character of weather during the season has been generally unfavourable for the cultivation and growth of the crop. The weather after the issue of the preliminary forecast improved slightly in the Surma Valley and the districts of Darrang and Sibsagar while in Kamrup and Garo Hills it became worse. The crop suffered to some extent from heavy rains in places Some damage has been done to the crop by floods in all districts and also by insects in Goalpara, Kamrup, Darrang and Nowgong.

The total area under jute as estimated by the District Officers is 168,000 acres against 186,000 acres (revised) of last year and 177,900 acres shown in the preliminary forecast of this year. The decrease as compared with the final figures for last year is in the districts of Cachar, Sylhet, Goalpara and Darrang and is due to the fall in price of jute during last year and the unfavourable weather at sowing time. The decrease as compared with the preliminary forecast is only in the district of Goalpara due to the revision of area by the Deputy Commissioner. The figures shown in the preliminary forecast have been raised in three districts and reduced in one only.

The average outturn of jute fibre per acre has been estimated to be 78 per cent. of the normal against 85 per cent. of last year. Taking 3·5 bales (of 400 lbs.) as the normal yield per acre the total outturn of the province comes to 458,300 bales against 599,000 bales in 1926 (now revised), or a decrease of about 24 per cent.

Director of Agriculture, Assam.

24-Parganas ..	76,000	62,000	71	96	172,400	191,000	Second week of September. Late.	The high percentage of yield this year is due to favourable weather condition during the growing period. The late harvest is due to scarcity of water for steeping.
Nadia ..	97,000	79,000	87	83	268,600	211,000	End of August. Normal.	In some places the crop was damaged by insects and drought also affected the crop to some extent. Much difficulty is being felt at present for steeping for want of sufficient water and unless there be good showers within the next few days, the estimated yield will fall far below the estimate.
Murshidabad ..	41,000	33,000	70	84	91,800	89,000	Middle of September. Late.	The general decrease in comparison with last year is due to drought and to poor price obtained last year. The harvesting is being delayed for want of water for steeping.
Jessore ..	132,000	107,000	73	100	307,800	342,000	August. Late ..	Want of rain has affected the steeping but the recent showers have supplied the deficiency. The insufficient rain did not affect the growth very seriously. Steeping in bad water may affect the quality.
Khulna ..	48,000	39,000	105	93·7	161,200	117,000	End of August. Normal.	....
Burdwan ..	5,000	5,000	77	88	12,300	14,000	First week of September.	Drizzling rain made the jute grow well. But slight damage due to insects was done in some places though it did not amount to any appreciable loss.
Midnapore ..	11,000	9,000	80	93·75	28,000	27,000	Middle of September. Normal.	The decrease in area is due to low price of jute obtained last year. Some damage was done by insects and floods.
Hooghly ..	34,000	31,000	53	112·5	58,200	111,000	End of August ..	The weather being very favourable all through, the yield expected is above the normal. There may, however, be difficulty in steeping in many places.
Howrah ..	15,000	12,000	93	91	44,800	35,000	Third week of August. Normal.	The condition and prospects of the crop are quite fair.
Rajshahi ..	126,000	105,000	91	86	399,600	315,000	Beginning of August. Late.	The weather was not favourable at the time of sowing. Subsequently, however, the condition improved and the plants thrived well. But owing to continuous drought the tanks, the ditches and *khals* have become dry and great difficulty is being experienced in steeping. As a matter of fact many cultivators are not cutting the plants for difficulty of steeping. The yield would therefore be necessarily far less than that of the previous year.
Dinajpur ..	83,000	73,000	89	81	258,600	208,000	By the end of August. Late.	The low outturn is due to short rainfall during the growing period of the crop.
Jalpaiguri ..	56,000	48,000	96	79	188,000	133,000	Normal ..	The damage done by hailstorms in April and subsequent heavy rains gave the crop a non-uniform growth throughout the district. Subsequent favourable weather could not improve it much.
Darjeeling ..	3,700	3,700	69	69	9,000	9,000	Last week of August.	The condition of the crop is fairly good.
Rangpur ..	352,000	309,000	99	87	1,220,000	944,000	Lowlands—July, Normal. Highlands—Beginning of September. Late.	The decrease in outturn is due to unfavourable weather.
Bogra ..	104,000	105,000	85	85	308,900	312,000	End of June ..	Owing to scarcity of rain there was no water sufficient for steeping and washing jute. The quality of the fibre is therefore very poor and many cultivators have not harvested their crop.

Want of rain at sowing time and about a month after sudden rise of rivers in June affected the growth to some extent Want of rain and fall of river subsequently affected the steeping to some extent in August but rise of the rivers *Padma* and *Jamuna* have removed the difficulty to a great extent from the beginning of September
Malda	49 000	45,000	65	51	111 900	77,000	Beginning of September. Late	The prolonged drought has affected the outturn and also caused the harvesting to be late There is already difficulty of water for steeping and if there be not more rain shortly much of the crop may remain unharvested and in that case the out turn will be still less.
Dacca	379,000	350,000	86	83	1,20 ',100	1,050 000	July Normal .	The weather was favourable at sowing time. Sudden rise of water level in April and hailstorms damaged a small area Growth was retarded by deficiency in rainfall especially in August Hence the outturn falls below the normal.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1927.

[NOTE.—On an average of the five years ending 1925-26, the area under jute, to which the Bihar and Orissa forecast relates, represents about 9.0 per cent. of the total area under jute in British India.]

Acreage.—The final district returns of the seven jute growing districts of the province show an area under jute of 193,200 acres, as against the finally revised figure of 297,000 acres last year. But these estimates have proved to be very much too low in recent years and I have reason to believe that the area sown in the current year will be approximately 241,000 acres. There has been a noticeable decrease in area in Purnea district due to the fact that the crop fetched a very low price last year.

Weather conditions.—In March light rain fell in all the jute districts, the fall being above the normal everywhere except in Cuttack and Balasore. In April light to moderate rain fell in Balasore and scanty showers in other jute districts. In May rain fell in all districts; the fall was above the normal in Champaran and Purnea only. In June moderate rain fell in all the districts. In July rain fell in all the districts, but the fall was below the normal in Champaran, Purnea and the Santal Parganas. In August rain fell in all the districts, the fall was above the normal in Santal Parganas, Cuttack and Balasore but much below normal in Purnea and other jute districts. In Purnea Sadar, the growth of the crop was retarded for want of sufficient rain. Floods have done some damage to the crop in Cuttack and Balasore.

Outturn.—In the important jute districts of Purnea and Cuttack, the outturn of the crop has been estimated as 70 and 84 per cent. of normal respectively. Champaran reports a normal crop, *i.e.*, 100 per cent. Bhagalpur and Santal Parganas report 93 and 90 per cent., respectively, and Muzaffarpur and Balasore report 60 and 40 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers the total gross outturn of the crop for the province this year comes to 412,900 bales, but on the assumption that the area approximates 241,000 acres, as suggested in the preliminary forecast, and taking the normal outturn as 3·17 bales per acre, the total gross outturn of the province will approximately be 667,000 bales against 763,500 bales. the revised final estimate for last year.

The import of jute from Nepal, estimated at 50,000 bales brings the total for the province to 717,000 bales.

I have no reason to believe that the reports as to the condition of the crop are pessimistic.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1927.

[NOTE.—On an average of the five years ending 1925-26, the area under jute in Bengal, to which this forecast relates, represents some 84·7 per cent. of the total area under jute in British India.]

Season.—Early weather conditions were generally exceptionally favourable and on this account sowings were probably larger than otherwise might have been the case. On the whole later conditions have also been favourable for growth, though excessive rain caused damage in Noakhali, and a part of Tippera, also in parts of Northern Bengal, including Jalpaiguri and Cooch Behar. In many tracts the crop may be regarded as unusually well-grown; but during July, August and the beginning of September there was considerable anxiety regarding steeping water. Good rain and a recent marked rise of the Brahmaputra river system has eased the retting situation in Eastern Bengal, but there is still difficulty in Northern Bengal and in the Presidency and Burdwan Divisions. It is even apprehended in some parts that it may not be possible to steep a portion of the crop. Such conditions are likely to adversely affect the quality of fibre produced.

Condition of the crop.—The area under jute is 2,962,100 acres, as against 3,363,900 acres (revised) last year. Since the preliminary forecast Darjeeling and Bogra have increased their jute area, while Noakhali, Cooch Behar and Tripura States have reduced theirs.

Outturn.—As in former years, the percentage figures are calculated on the basis of divisional normals which remain as follows :—

Dacca and Chittagong Divisions—3·7 bales per acre.

Rajshahi Division—3·5 bales per acre.

Presidency and Burdwan Divisions—3·2 bales per acre.

The total outturn of the crop is estimated at 9,054,700 bales of 400 lbs. as against 10,769,200 bales (revised) last year, a decrease of 1,714,500 bales.

Stocks of old jute.—It is advisable to remark that stocks of old jute carried over from last season appear to be appreciably greater than usual.

Director of Agriculture, Bengal.

	Acres.	Acres.	Acres.			Bales.	Bales.		
Cachar ..	300	500	300	75	80	1,300	800	Latter part of August. Normal.	The weather was unfavourable at the beginning of the season on account of heavy rain but it improved afterwards and the prospects of the crop appear to be somewhat satisfactory. There was a fall in the price of jute. The flood in April damaged the crop to some extent.
Sylhet ..	20,000	22,000	19,000	75	80	57,700	53,200	End of July. Normal.	There was heavy rain during the early part of the season which was subsequently followed by drought. The season was on the whole not quite favourable. The increase in the cultivation of rice and the fall in price of jute also account for the decrease in area. The increase in area as compared with the preliminary forecast is due to the revised estimate in the Habiganj Subdivision. The early flood caused certain damage to the crop.
Goalpara ..	60,000	68,100	52,000	90	75	214,500	136,500	First part of July. Early.	The season has been unfavourable for the cultivation and growth of the jute crop and this with the low price of jute last year is responsible for the decrease in area. The area shown in the preliminary forecast which was based on the estimates of the Thana officers is not correct. Damage has been reported by insects in some places and by floods in low lands.
Kamrup ..	15,000	11,700	11,700	90	80	36,000	32,800	15th August. Normal.	The weather at the time of sowing was generally favourable. Since then it became unsatisfactory affecting growth to a certain extent. Damage to some extent was caused by flood and insects. The area reported in the preliminary forecast has been revised.
Darrang ..	12,000	20,000	19,300	85	75	61,300	50,700	Middle of July. Early.	The sowing time was not favourable owing to inadequate rain. The weather however improved afterwards by subsequent rains and was beneficial for growth of the crop. The heavy rain in June interfered with growth to some extent. On the whole the season has not been favourable. Some damage has been done to the crop by flood and insects. The area now reported has been more carefully estimated than that shown in the preliminary forecast.
Nowgong ..	40,000	57,000	59,500	85	80	169,600	166,600	7th July. Early.	The increase in area is due to gradual extension of cultivation. The weather has been unfavourable throughout the season owing to irregular rains. Floods and insects caused some damage to the crop.
Sibsagar ..	300	300	300	80	80	800	800	Middle of August. Normal.	The weather was not favourable at the beginning. It became favourable afterwards but the sudden flood in the middle of the season damaged the crop considerably.
Lakhimpur ..	200	600	700	86	95	1,800	2,300	Ditto ..	There was extension of cultivation mainly by the influx of Mymensingh settlers in the North Lakhimpur subdivision. The season was generally satisfactory although there was heavy rainfall at sowing time. The heavy flood in July caused some damage to the crop.
Garo Hills (plains).	3,300	5,200	5,200	70	80	12,700	14,600	Middle of July. Normal.	The weather was favourable during the first part of the season but unsatisfactory in the latter part. Flood damaged the crop to some extent

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th September 1927.

Summary.—During the week the rainfall was generally light excepting in parts of 24-Parganas and some North and East Bengal districts where it was heavy. Transplantation of winter paddy seedlings and harvesting of autumn crops are nearly over. More rain is still wanted for the growth of the standing crops and for the steeping of jute in some places, especially in Birbhum, Bankura, Murshidabad, Burdwan, Rajshahi, Malda and Dinajpur and in the Bhola subdivision of Bakarganj. The present outlook of the standing crops is generally fair except in parts of the districts mentioned above, where the condition of the paddy crops is reported to be poor. Distress continues to prevail in parts of Birbhum, Malda and Dinajpur. Test relief works continue at Mororoi, and Nalhati in Birbhum, where 821 persons worked on the 24th September, and also at Porsha and Patnitola in Dinajpur where 2,619 persons are working daily. The average price of common rice for the province has practically remained the same as compared with that of the previous week.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[TO BE INTRODUCED IN THE COUNCIL OF STATE.]

A Bill further to amend the Indian Limitation Act, 1908.

WHEREAS it is expedient further to amend the Indian Limitation Act, 1908, for the purposes hereinafter appearing; It is hereby enacted as follows :— I of 1908

Short title and commencement.

1. (*1*) This Act may be called the Indian Limitation (Amendment) Act, 192 .

(*2*) It shall come into force on the 1st day of January, 1929.

Amendment of section 10, Act IX of 1908

2. In section 10 of the Indian Limitation Act, 1908 (hereinafter referred to as the said Act), the following paragraph shall be inserted, namely :— IX of 1908.

"For the purposes of this section any property comprised in a Hindu, Muhammadan or Buddhist religious or charitable endowment shall be deemed to be property vested in trust for a specific purpose, and the manager of any such property shall be deemed to be the trustee thereof."

Amendment of First Schedule to Act IX of 1908.

3. In the First Division of the First Schedule to the said Act,—

(*a*) after Article 48, the following Article shall be inserted, namely :—

"48A. To recover moveable property conveyed or bequeathed in trust, deposited or pawned, and afterwards bought from the trustee, depositary or pawnee for a valuable consideration. *Explanation.*—For the purposes of this article any property comprised in a Hindu, Muhammadan or Buddhist religious or charitable endowment is deemed to be property conveyed in trust, and the manager of any such property is deemed to be the trustee thereof".	Three years.	When the sale becomes known to the plaintiff.

(*b*) Article 133 shall be omitted ; and

(*c*) in Article 134—

(*i*) after the entry in the first column, the following *Explanation* shall be inserted, namely :—

" *Explanation.*—For the purposes of this Article any property comprised in a Hindu, Muhammadan or Buddhist religious or charitable endowment is deemed to be property conveyed in trust, and the manager of any such property is deemed to be the trustee thereof";

(*ii*) for the entry in the third column the entry "When the transfer becomes known to the plaintiff" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

In paragraph 16 of Chapter 41 of their Report the Civil Justice Committee recommend—

(1) that articles 133 and 134 of the First Schedule to the Indian Limitation Act, 1908, should be revised with reference to recent decisions ; and

(2) that in particular the alienation of property vested in the head of a religious institution should be specifically provided for.

2. It is understood that the first recommendation relates to the difficulties which have arisen with regard to the interpretation of articles 133 and 134 mainly as a result of the Full Bench ruling of the Madras High Court in Seeti Kutti *versus* Kunhi Pattuma (I. L. R , 40, Madras, 1040). In this case two of the Judges held that the words in column 3 must be given their literal meaning and that time must run from the date of transfer from the trustee or the original mortgagee and the date when possession was taken was immaterial ; one Judge held that the article only applies when the transferee from the trustee or the original mortgagee took possession on the date of transfer ; and the remaining two Judges held that time under the article only runs from the date when possession is obtained. The result was that the view of the first two Judges that the article operated to bar the particular suit by limitation failed. This case was considered by Richardson J. in Narsindas *versus* Abdur Rahim (I. L. R., 47, Calcutta, 866). Richardson J., held that limitation under the article begins to run from the date on which the property or the title was transferred by the trustee or the original mortgagee to the transferee. The other Judge, however, who decided that case, Shams-ul-Huda J., did not come to any final conclusion as to the effect of the article. In a later case reported in I. L. R., 50, Calcutta, page 62, Mookerjee J., said that the article referred to a case where the transfer by the trustee was accompanied by delivery of possession to the transferee, but it is not definitely clear that he intended to suggest that under the article possession must be taken on the date of transfer. and accordingly it is not certain which of the views held in the Madras Full Bench in the decision referred to above was favoured by him. These cases refer to article 134, and no cases dealing with article 133 have been traced, but the same general principle would presumably apply to both articles.

3. The Committee's second recommendation refers, it is understood, to the decisions of the Privy Council in Vidyavaruthi *versus* Balusami (I. L. R., 44, Madras, 831) and Abdur Rahim *versus* Narain Das (I. L. R., 50, Calcutta, 329). As a result of these two rulings it is now settled law that a *Dharmakarta*, *Mahant* or manager of a Hindu endowed religious property, or the *Mutwalli or Sajjadanashin* in whom the management of Muhammadan endowments is vested are not trustees within the meaning of the word as used in section 10 of the Indian Limitation Act for the reason that the property does not vest in them. The result is that when a suit is brought against a person, not being an assign for valuable consideration, endowments of this nature are not protected.

4. The Committee's two recommendations are therefore:

(1) that it should be made clear whether articles 133 and 134 mean what they say, viz., that limitation runs from the date of purchase or of transfer, as the case may be, and that the date of obtaining possession is immaterial;

(2) that section 10 of the Act should be amended so as to put Hindu and Muhammadan religious endowments on the same footing as other trust funds which definitely vest in a trustee.

After consulting the Local Governments the Government of India have come to the following conclusions: -

(1) that in the case of both the articles the period of limitation should run from the date when the sale or transfer, respectively, becomes known to the plaintiff;

(2) that the period in the case of article 133 should be reduced from twelve to three years;

(3) that Hindu, Muhammadan and Buddhist religious as well as charitable endowments should be included within the scope of both these articles as also of section 10 of the Act.

The Bill gives effect to these conclusions.

The 26th July 1927. S. R. DAS.

(*4*) The provisions of section 66A shall apply to references to the High Court under this section :

Provided that nothing in this sub-section shall be deemed to authorise an appeal to His Majesty in Council on a question of fact."

STATEMENT OF OBJECTS AND REASONS.

The Government have been considering for some time, in consultation with the commercial community and the officers of the Income-tax Department, the best methods of rendering illegal certain practices, now legal, which are adopted by persons desirous of evading the payment of income-tax and super-tax, and this Bill proposes to give the taxing authorities the necessary powers to check such evasion.

2. Broadly speaking, the proposals in the Bill are—

(1) to define a 'firm', 'partner' and 'partnership' in the same sense as in the Indian Contract Act, 1872;

(2) to give discretion to the Income-tax Officer to treat as separate assessees the individuals comprising any association carrying on business, of which only one member is competent to bind the association by his acts;

(3) to give the Income-tax Officer discretion to treat the members of a company as separate assessees if the company restricts the right to transfer shares or limits the number of shareholders, exclusive of employees, to 50, or does not invite, or permit subscription to its shares or debentures by the public; and is under the control of not more than five members;

(4) to permit the production by public servants before a Court of all documents or information relating to the registration of firms;

(5) to impose penalties for failure actually to distribute shares of the profits of a firm in accordance with the provisions of the deed of partnership registered under the Income-tax Act; and

(6) to give discretion to the Income-tax Officer to treat a registered firm as an unregistered firm if it fails to make a return of its income or to produce accounts or other documents called for by the Income-tax Officer.

3. The powers under (2) and (3) in paragraph 2 above will be exercised by the Income-tax Officer, with the previous approval of the Assistant Commissioner, and an appeal will lie against the orders of the Income-tax Officer to the Commissioner of Income-tax. Against the appellate order of the Commissioner, it is proposed to allow a reference to the High Court both on questions of fact and on questions of law instead of on questions of law only as in all other matters arising under the Income-tax Act.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 8th October 1927.

Summary.—During the week the rainfall was generally moderate to heavy. It has been greatly beneficial to the growth of the standing crops and to the steeping and washing of jute, but more rain is still needed, especially in parts of some West and North Bengal districts. Transplantation of winter paddy seedlings and harvesting of autumn crops are nearly finished. The present outlook of the standing crops is generally fair. Distress continues to prevail in parts of Birbhum, Malda and Dinajpur. Test relief works continue at Mororoi and Nalhati in Birbhum, where 393 persons worked on the 30th September, and also at Patnitola and Porsha police-stations in Dinajpur where 1,512 persons are working. The average price of common rice for the province has practically remained the same as compared with that of the previous week.

From—RAI BAHADUR S. K. RAHA, Commissioner of Excise and Salt, Bengal (offg.),

To—The Secretary, Government of Bengal, Department of Agriculture and Industries.

I have the honour to submit the following report on the administration of the Excise Department in the Presidency of Bengal for the year 1926-27.

I held charge of the department throughout the year, except from the 1st to the 5th April 1926 during which period Mr. G. P. Hogg, I.C.S., was in charge.

4. **Administrative changes and reforms.**—(1) With a view to secure more popular control over the determination *of the number and sites* of excise and opium shops, the local Excise Advisory Committees in the districts of the 24-Parganas, Dacca, Rangpur and Chittagong were replaced by Excise Licensing Boards, with a non-official majority on each, on the same lines as in Calcutta. These Boards were empowered to decide the number of licenses and the location of shops for the retail sale of intoxicating liquors, hemp drugs and opium (Government Notifications Nos. 422Ex. and 423Ex., dated the 21st January 1927).

(2) With a view to check the excessive consumption of country spirit amongst the tea-garden coolies in the Duars of the district of Jalpaiguri, the following steps were taken during the year:—

(*i*) In several shops situated in *hâts*, orders were issued to close the shops on *hât* days at 4 P.M. Excessive indulgence in liquor generally used to happen after this hour.

(*ii*) The duty and retail sale price of 75° U. P. liquor were increased from Re. 1-5 and Rs. 2-11 to Rs. 2-5 and Rs. 3-11 respectively per bulk gallon in all the shops on the east side of the Teesta.

(*iii*) Steps were taken by the Deputy Commissioner to make such alterations in the location of shops as appeared to be feasible.

The measures taken have been successful (Government Notifications Nos. 1159 Ex. and 1160 Ex., dated the 23rd February 1927).

(3) There was excessive indulgence in opium amongst the *Magh* settlers in the colonization area in the *Sunderbans* in the district of Bakarganj, and steps were taken to stop the evil. Out of 6 shops in the area, 3 were abolished with effect from 1st April 1927, and the legal limit of retail sale was reduced from 3 tolas to ¼ tola. At the same time, the limit of retail sale throughout the other areas in the district was reduced from 3 tolas to 1 tola.

(4) The system of issuing licenses for the home-brew of *pachwai* to the members of the aboriginal tribes at an annual fee of Rs. 2 per household was extended to the district of Bakarganj, to meet the requirements of the aboriginal settlers in the district, with effect from the 1st June 1926 (Government Notification No. 118 T.A.I., dated the 11th May 1926).

(5) The Bengal fixed fee system of licensing of *pachwai* shops was introduced throughout the district of Murshidabad, with effect from the 1st April 1927.

(6) The privilege of free home-brew of *pachwai* (country beer) was withdrawn from the town of Darjeeling with effect from the 1st April 1927, with a view to check the illicit sale of the article, as well as the illicit manufacture of country spirit therefrom. The limit of retail sale from the *pachwai* shops in the Darjeeling Municipality was also, at the same time, reduced from 12 to 6 seers of undiluted *pachwai*.

(7) In the district of Darjeeling the sale strengths of country spirit were reduced from 25° U.P. and 55° U.P. to 30° U.P. and 60° U.P., the retail sale prices remaining the same, with effect from the 1st April 1927. This measure was partly intended to control the increase in consumption in the district (Government Notifications Nos. 1789Ex. and 1790 Ex., dated the 24th March 1927).

* * * *

(9) The closing hour of the foreign liquor, country spirit, *tari* and *pachwai* shops within the Bansberia Municipality of Hooghly district and of the foreign liquor shops at Kanchrapara in the 24-Parganas district was fixed at 8 P.M., to meet the requirements of the consumers working in the jute mills in the former place and in the railway workshops at the latter place (Government Notifications Nos. 958 T.A.I., dated the 22nd October 1926, and 1511 Ex., dated the 8th March 1927).

* * * *

(12) The concession of obtaining duty-free spirit has been extended—

(*i*) to private hospitals, dispensaries and other medical institutions, which are not under Government supervision but which may be specially permitted by the Excise Commissioner on the certificate of the Surgeon-General;

(*ii*) to veterinary hospitals, when the indents are countersigned by the the Director or the Assistant Directors of the Veterinary Department (Government Notifications No. 3064 Ex., dated the 13th July 1926, and No. 1602 Ex., dated the 14th March, 1927).

(13) The export of the following drugs from Bengal by sea to a maritime State in India, or to any place beyond the limits of India, is now permitted to be made only from the port of Calcutta, and under an export authorisation granted by the Collector of Customs, Calcutta (Government Notifications Nos. 1072 T.A.I., 1073 T.A.I. and 1074 T.A.I., dated the 8th November 1926):—

(*i*) Intoxicating drugs.

(*ii*) Morphia drugs and medicinal opium.

(*iii*) Cocaine.

(*iv*) Indian hemp, including *charas*, *ganja* and *bhang*.

(*v*) Galenical preparations of Indian hemp.

(14) Certain medicinal preparations containing cocaine, opium or morphia, which were previously exempt from excise restrictions, have been brought under the import certificate system (Government Notifications Nos. 5983, 5985 and 5986, dated the 16th December 1926).

(15) The special concession hitherto allowed to foreign horse-dealers and travellers of rank or position, about the importation and possession of opium produced out of India or intoxicating drugs prepared therefrom, has been withdrawn (Government Notification No. 407Ex., dated the 20th January 1927).

* * * *

5. **Temperance movements.**—Reports of temperance movements during the year under review were received from the following districts as in the preceding year:—

(*i*) In *Calcutta* the various temperance organizations, and specially the Calcutta Temperance Federation, continued to take keen interest in the problem of temperance.

(*ii*) *Chittagong.*—The temperance movement organised by the Mugh community at Cox's Bazar, Teknaf and Nilla continued during the year. The leading

Mughs of Teknaf have introduced a system of social boycott on people keeping *chandu* or opium smoking dens. The result is beneficial.

(*iii*) *Dinajpur.*—Some workers of the *Sudhi movement* devoted their attention to effect moderation in the indulgence of drink among the aboriginal settlers in the district.

(*iv*) *Jalpaiguri.*—The only temperance movement in the district was the one which was noticed in the preceding year's report, among the Christian Santal colony at Samuktolla, where total prohibition was enforced in return for the advantages of residence within the colony.

(*v*) *Darjeeling.*—The local Christian missionary gentlemen and the local Temperance Association devoted some attention to the cause of temperance.

It does not appear that there was any sustained temperance movement in any of the mufassal districts, though in particular centres, interest was shown in the problem by individual workers.

6. **Licensing Boards.**—The *Calcutta Licensing Board* held 6 meetings, and took the measures indicated below:—

(*a*) The following licensed shops were abolished with effect from the 1st April 1927:—3 country spirit, 1 *ganja*, and 2 *tari*. One *tari* shop was abolished with effect from the 1st December 1926. The privilege of "On" vend was withdrawn from 3 country spirit shops from the 1st April 1927.

(*b*) Transfer of sites was approved in the following cases, *viz.*—3 country spirit, 2 opium, 3 foreign liquor public "Off" and 1 hotel.

(*c*) One new foreign liquor public "Off" license was sanctioned with effect from 1st April 1927.

(*d*) Objections made against the existing location of the following premises were rejected, *viz.*—4 country spirit, 1 foreign liquor "On", 1 foreign liquor public "Off", 2 *tari* and 1 restaurant.

(*e*) Two applications for conversion of country spirit "Off" licenses into "On" and "Off" licenses, 5 applications for new foreign liquor public "Off" licenses, 5 applications for new restaurant liquor licenses and 2 applications for reconsideration of the Board's previous orders abolishing two country spirit licenses were rejected by them.

The *Licensing Boards for the Municipalities of Howrah and Bally each* held one meeting during the year.

The *Howrah Board* sanctioned the abolition of 1 country spirit, 1 *tari*, 1 *ganja*, and 1 opium shop with effect from the 1st April 1927, and sanctioned the transfer of sites of 1 country spirit, 1 *tari*, and 1 combined drug shop. The Board discussed and passed a resolution to the effect that steps should be taken to improve the sanitary condition of the drink shops within the municipality, and action was taken by the department in this direction during the year. The Board rejected an application for a new combined opium and *ganja* license.

The *Bally Board* effected no changes in the number and location of shops during the year.

The *Sadar Licensing Board of the 24-Parganas district* held two meetings. Applications for new licenses for the year 1927-28 were not considered by the Board, as public opinion could not be invited thereon in time. One *tari* shop was abolished by the Board, and on a motion for the abolition of one country spirit and one *tari* shop, amendments were moved and carried, to the effect that the shops be retained until other suitable sites could be found for them.

The *Barrackpore Licensing Board* held two meetings. The Board made no alteration in the number and location of the existing licensed premises for the year 1927-28.

The *Dacca Licensing Board* held two meetings. The number and sites of the existing shops, as well as applications for new shops, were considered. The Board made no changes in the number of licenses, but directed change of sites of one *tari* and one country spirit shop. The Board rejected all applications for new licenses.

The *Rangpur Licensing Board* held one meeting and directed the abolition of 3 *ganja* shops, 1 combined *ganja* and opium shop, 1 *bhang* shop and 2 *tari* shops, and the change of site of 1 country spirit shop, with effect from 1st April

1927. The Board sanctioned one new foreign liquor "Off" license with effect from the above date.

The *Chittagong Licensing Board* held one meeting and directed the abolition of 1 country spirit, 1 foreign liquor, 1 *tari*, and 3 *ganja* shops, and the change of sites of 2 country spirit, 1 opium and 2 *pachwai* shops, with effect from 1st April 1927. The Board considered a large number of petitions for new opium and *ganja* shops at different places, and held that no increase of licenses for the sale of these drugs during 1927-28 were necessary.

I have watched the proceedings of the various Boards during the year, and would note that all of these evinced moderation and judgment in their work.

7. **Excise Advisory Committees.**—In areas other than those mentioned in paragraph 6 above, the local Excise Advisory Committees advised the Collectors as regards the number and location of excise and opium shops. All their recommendations were carefully considered, and most of them were accepted.

In accordance with their recommendations, 6 country spirit, 3 *tari*, 14 *pachwai* and 6 opium shops were abolished, the sites of 16 country spirit, 7 *tari*, 13 *pachwai*, 4 opium, 4 *ganja* and 3 *bhang* shops were changed, and 1 *tari*, 2 *pachwai*, 1 opium and 2 *ganja* shops were newly opened with effect from 1st April 1927.

The various Advisory Committees generally showed due discretion and appreciation of existing conditions in their recommendations. None recommended total abolition of all excise and opium shops in its jurisdiction.

8. **Total revenue and charges.**—The excise revenue and charges of the Presidency for the last five years are shown below:—

Excluding the cost price of opium which is being included in the revenue of the department from 1925-26, the figures for 1925-26 and 1926-27 are as follows:—

Period.	Revenue.	Refunds.
1	2	3
	Rs.	Rs.
1925-26	2,17,16,633	43,961

Difference of the past two years	+78,212	−3,73,151	+·43

The decrease in revenue was mainly due to closure of shops in Calcutta during April, May and June 1926 on account of the communal riots, and also to subsequent closure of shops on certain festive occasions to prevent communal riots.

9. **Actual receipts.**—Deducting the advance collections (Rs. 1,21,230) for 1927-28 and adding the revenue (Rs. 85,143) which was collected in advance in 1925-26, the actual receipts on account of 1926-27 were Rs. 2,25,19,571, against Rs. 2,28,34,518 (after similar adjustment) of the preceding year.

10. **Excise charges.**—The total expenditure of the Excise and Salt Department, excluding the cost price of opium payable to the Government of India, was Rs. 15,29,926 during the year, against Rs. 14,51,714 during 1925-26.

11. **Revenue under different heads.**—The largest increase of revenue (Rs. 4,17,138) occurred under "hemp drugs." Opium came next with an increase of Rs. 1,85,665, followed by receipts from "Commercial spirits" including medicated wines (Rs. 44,516). Receipts under "Miscellaneous" showed an increase of Rs. 17,822. The largest decrease (Rs. 5,68,107) occurred under the head "Country spirit," followed by a decrease of Rs. 1,92,555 from "*Pachwai*" and Rs. 50,440 from "*Tari*."

12. **Demand and collection.**—Of the gross demand of Rs. 2,26,08,108, a sum of Rs. 2,25,55,658, or 99·7 per cent., was realized. Rupees 31,750 was remitted as irrecoverable The incidence of excise revenue per head of population was 7 annas 8 pies, against 7 annas 9 pies in the previous year.

SECTION II.—Country Liquor.

* * * *

COUNTRY SPIRIT.

14. **Systems of supply and sale.**—There were no changes in the systems of supply and sale.

15. **Retail licenses.**—The number of licenses for the sale of country spirit was 938, against 948 in 1925-26, showing a decrease of 10 licenses.

16. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 6,27,962 L.P. gallons, as compared with 6,32,351 L.P. gallons in the preceding year, showing a decrease of 4,389 L.P. gallons. Consumption increased in 16 districts and decreased in 11 districts. A large increase of 24,698 L.P. gallons, or 53·9 per cent., occurred in the district of Jalpaiguri, while Calcutta showed an appreciable decrease of 28,955 L.P. gallons, or 15·8 per cent. Steps taken by the Government, before the close of the year, to check the excessive consumption of liquor in the district of Jalpaiguri have been dealt with by me in paragraph 4(2) above. The principal reason for the fall in consumption in Calcutta has been explained in paragraph 17.

There was a general decrease in most of the districts of the Burdwan Division, due to the higher price of rice in the division almost throughout the year and to slump in the coal trade in the Burdwan district.

There was an increase of consumption in many of the districts in North and East Bengal which was due to the influx of upcountry men in connection with jute and other business and a general increase in the wages of the labouring classes in business centres.

17. **Total revenue from country spirit.**—The total revenue (license and distillery fees and duty) from country spirit was Rs. 90,58,373, against Rs. 96,26,480—a decrease of Rs. 5,68,107. The revenue derived from duty and distillery fees decreased by Rs 5,19,588 and that from license fees decreased by Rs. 48,519.

The fall in the revenue was solely due to the fall in the consumption in Calcutta, brought about by the communal disturbances in the city and the necessity of closing down country spirit shops on most of the festive occasions for the preservation of peace.

18. **Convictions for drunkenness, and action taken against licensees for permitting it.**— * * * * * * In Calcutta 3,241 persons were convicted of drunkenness, as compared with 3,968 persons in the previous year, but no statistics were taken to show what proportions of these cases were due to country spirit, *tari* and foreign liquor respectively. The Commissioner of Police, Calcutta, has attributed the decrease principally to the closure of shops referred to above.

19. **Distilleries and warehouses.**—There was no change in the number of distillers. The rates fixed for cost price of spirit from 1st July 1926 were—(1) Messrs. Carew & Co., Re. 1-12 per L.P. gallon, (2) Messrs. D. Waldie & Co., Re. 1-10-3 per L.P. gallon, (3) Messrs. Hajee Ismail Sait & Son, Re. 1-7-3 per L.P. gallon. These rates continued till the 30th June 1927.

The spirit warehouse at Jalpaiguri was abolished from the 1st April 1927.

Adequate supply of liquor was generally maintained throughout the year from the distilleries to the bonded warehouses, and though on several occasions the stock fell below the prescribed minimum, the issues to the "retail" premises were not affected.

TARI.

20. **General.**—During the year under report, licenses for the retail sale of fermented *tari* were settled by auction in the "tree-tax" as well as in the other areas of the Presidency.

21. **The tree-tax system in Hooghly, Howrah, the 24-Parganas and Calcutta.**—The first introduction of the tree-tax system in Calcutta met with serious difficulty in the beginning of the year, on account of heavy rains in March 1926, preventing proper preparation of the trees in time, and subsequently on account of the communal disturbances, necessitating constant closure of *tari* shops. Compensation had to be granted to the licensees, and easy instalments for payment of license fees and tree-tax were permitted. The new system has, however, been started fairly satisfactorily, both in Calcutta and in the 24-Parganas.

The system continued to work well in the other two districts.

22. **Statistics.**—The total receipts under the head "*Tari*" decreased from Rs. 8,84,892 to Rs. 8,34,452. The number of retail licenses decreased from 543 to 537. The bulk of the *tari* revenue was derived as in previous years from the Burdwan and Presidency Divisions and the district of Malda, which altogether contributed Rs. 7,97,453 out of the total revenue under this head of Rs. 8,34,452. The decrease in revenue was mainly due to the closure of shops in Calcutta referred to above, and to the issue of a less number of tree-tapping licenses for domestic consumption in the districts of Hooghly and Howrah.

PACHWAI.

23. **Licenses.**—The total number of licenses issued for "retail sale," "home-brew (annual)," and "manufacture of *pachwai* on special occasions" was 54,952, as compared with 37,326 in 1925-26.

	Number of licenses issued.	
	1925-26.	1926-27.
Retail sale	1,203	1,201
Home-brew (annual) ..	34,365	52,992
Manufacture on special occasions	1,758	759

The increase in the number of licenses permitting home-brew of *pachwai* was solely due to the revised system of issue of such licenses by the managers of tea-gardens in the district of Jalpaiguri, sanctioned in Government Order No.1152 T.A.I., dated the 17th October 1925 The revised measures were introduced to prevent the extensive illicit brew of *pachwai* amongst the tea-garden coolies in the district, and have been successful, specially owing to the co-operation of the managers of the gardens.

24. **Revenue.**—The revenue in license fees from "retail vend shops" decreased from Rs. 12,14,396 to Rs. 10,05,382. The decrease was marked in Burdwan (Rs.1,59,000), Birbhum (Rs. 33,330) and Bankura (Rs. 20,691). The large decrease in revenue in Burdwan was principally due to the prevailing higher rate of the price of rice, causing a corresponding reduction in license fees, and partly to the slump in the coal trade which caused some reduction in the consumption. In Birbhum the decrease was solely due to the higher rate of the price of rice, while in Bankura the decrease was partly due to the higher rate of the price of rice, and partly to a temporary movement among the Santhals in the western part of the district to stop coming to the licensed shops, in the hope of obtaining the concession of free home-brew.

25. **Consumption.**—The licit consumption in the districts of Burdwan, Birbhum, Bankura and Hooghly, where the Bengal fixed fee system was in operation and accurate figures of consumption from the licensed shops were available, amounted to 199,418 maunds of rice, against 2,05,064 maunds of rice during the previous year, as detailed below:—

	Maunds of rice.	
	1925-26.	1926-27
Burdwan	107,932	97,501
Birbhum	58,459	62,003
Hooghly	10,028	12,522
Bankura	27,745	26,732
Total ..	205,064	199,418

Since the beginning of the current year, the fixed fee system has been introduced in all the licensed shops (78) in the district of Murshidabad.

Out of 1,201 licenses in the Presidency for the manufacture and vend of *pachwai*, 938 are now working under the fixed fee system.

26. **Control over manufacture and sale of pachwai and of bakhar.**—The measures adopted by Government for further regulation and control over the manufacture and sale of *pachwai*, mentioned in paragraph 25 of the report for the year 1925-26, have been effective in improving the quality of *pachwai* in all the districts where they were introduced.

The Collector of Burdwan has reported that the system of testing diluted *pachwai* with the ebullioscope introduced during the year has proved a success—*both as a safeguard against leakage of revenue, as well as a protection to the consumer against unauthorised adulteration*. Several of the worst cases of misbehaviour amongst licensees were dealt with by cancellation or non-renewal of the licenses. The Collector of Birbhum has reported that there has been a satisfactory improvement in the quality of *pachwai* now sold by the retail vendors. Rice used at present is better, arrangements have been made for purer water-supply, and there has been a general improvement in all the operations connected with the manufacture of *pachwai*. The proper control of the manufacture and supply of *bakhar*, which is one of the main problems in this connection in the district of Birbhum, also received adequate attention.

27. The number of licenses issued for the manufacture and sale of *bakhar* during the year were as follows:—

District.	Number of licenses issued.	
	Manufacture and sale of *bakhar*.	Sale of *bakhar*.
Burdwan	9	30
Birbhum	32	10
Bankura	14	10
Midnapore	64	..
Hooghly	..	3
Murshidabad	4	6

The number of licenses issued in Birbhum for the manufacture and sale of *bakhar* was considerably curtailed during the year, as a result of the investigations into the subject which were carried on during the year under report, as well as in the preceding year. Detailed regulations were also introduced for regular accounts of manufacture and supply.

The Superintendent of Excise, Birbhum, Mr. D. N. Mukherjee, who has been conducting experiments in regard to the manufacture of *bakhar*, has come to the conclusion that several of the suspicious herbs and roots which were being used by *bakhar* manufacturers were not essential for the manufacture of the article, and several of such herbs were prohibited from use in its manufacture during the year, in accordance with the advice of the Chemical Examiner. Efforts are now being made for the preparation of a standard *bakhar*, free from all herbs, roots or seeds which are of a poisonous or suspicious character.

The Collector of Customs, Calcutta, has commented on the statistics for the Port of Calcutta in 1926 27 as follows . --

" *Ale, beer and porter.*—British beers have again advanced at the expense of German brands. Japanese, however, show an increase of nearly 25 per cent. and imports from the Netherlands continued to expand. Compared with imports from the United Kingdom, which totalled 576,772 gallons, both these classes are of comparative insignificance.

Brandy and whisky.—In spite of a less favourable rate of exchange during the greater part of the year, imports of brandy showed a further increase. Whisky declined to the extent of 20,000 gallons, or 10 per cent.

Rum.—Imports of rum, denatured on arrival, reached the high figure of 356,333 gallons.

Consumption.—Brandy increased slightly, while whisky fell off. Wines of all kinds were consumed in slightly larger quantities. Vermouth, however, was somewhat less popular than in the previous year."

The following statistics show imports and issues of spirits in L. P. gallons at the Calcutta Custom House :—

32. **Import and manufacture of Indian-made brandy, whisky, gin and rum.**—The figures below show the total quantity of spirit used in the manufacture of brandy, whisky, gin and rum in Bengal, as well as the imports thereof from other provinces :—

Besides the above, 38·5 L. P. gallons of rum were imported from the Dyer Distillery, Lucknow.

Manufacture of beer.—Of the two breweries licensed during the year under report, only the Victoria Brewery at Sonada worked and had an outturn of 19,889 gallons of beer, of which 14,715 gallons were sold to the military authorities, 5,199 gallons to the public and 181 gallons to the provinces outside Bengal.

Duty on Indian-made potable foreign liquors and beer.—The receipts from duty on potable spirits and beer manufactured in India amounted to Rs. 5,90,177, against Rs. 7,53,882 and Rs. 8,53,342 in the two previous years respectively. The preference shown to cheap imported brandy and whisky by consumers who are habituated to drink this sort of liquor was the principal cause of this decrease in duty.

33. **Licenses and fees.**—The total number of licenses issued for " trade " and " public " vend was 1,582, against 1,623 in the preceding year. The decrease occurred under " Trade " (3), " Public 'Off' " (4), " temporary bars " (26), " Late closing " (14), while increase occurred under the head " Railway refreshment room " (6).

The total receipts from license fees on foreign liquor licenses, levied under the

Bengal fixed fee system, were as follows :—

	Rs.
1922-23	242,667
1923-24	271,698
1924-25	305,907
1925-26	295,784

MEDICATED WINES.

34. **Licenses and revenue.**—The number of licenses for the retail sale of medicated wines was 189, as compared with 175 in the previous year. The revenue from license fees was Rs. 10,615, against Rs. 7,075 in the preceding year.

II.—INDUSTRIAL SPIRITS (EXCLUDING DENATURED SPIRITS).

* * * *

35. **Revenue.**—The total revenue derived from rectified spirit and absolute alcohol used for medicinal, scientific or other industrial purposes in the Presidency was Rs. 5,00,895.

* * * *

36. **Issue of rectified spirit from distilleries and warehouses.**—The following quantities of rectified spirit were issued during the year for medicinal, industrial and scientific purposes from distilleries and excise warehouses in Bengal :—

Place of manufacture.	Duty-free issues to Government Departments, colleges, etc. (L. P. gallons).	For manufacture of tinctures and other medicinal preparations. (L. P. gallons).	
		In bonded laboratories.	By permit-holders.

Bahir-Mirzapur ..	5,499	14,782	1,124
Total ..	7,392	125,981	16,078

*Besides 73·1 L.P. gallons of rectified spirit were taken by permit-holders in United Provinces and 157·4 L.P. gallons of rectified spirit were taken for medicinal purposes in Assam.

Besides the above, 119·8 L. P. gallons of rum were issued duty-free from the Konnagar Distillery for use in hospitals.

Duty-free issues (column 2) of rectified spirit were made to the following institutions :—

(1) Medical Store-keeper.

(2) The Zoological Surveyor of India.

(3) The Botanical Surveyor of India.

(4) The Officer in charge, Mathematical Instrument Office.

(5) The School of Tropical Medicine and Hygiene.

(6) The Calcutta Corporation.

(7) The Presidency College.

(8) The Bethune College.

(9) The Dacca University.

(10) The Indian School of Mines, Dhanbad.

(11) The Scottish Churches College.

(12) The Zoological Laboratory.

(13) The Controller of Stationery and Stamps.

(14) The Military Food Laboratory, Kasauli, Punjab.

(15) The Director of Agriculture, Sabour.

(16) The Manager, Government Photo. Zinc Office, Poona.

(17) The Calcutta Research Tannery.

(18) The Principal, Mymensingh College.

37. **Manufacture of Tinctures and medicines.**—Six bonded laboratories in Calcutta and one in Konnagar continued to manufacture tinctures and medicines during the year under report Duty was paid on 60,466 L. P. gallons of spirit contained in tinctures and medicinal preparations issued from the seven laboratories, while medicinal preparations containing 25,281 L. P. gallons of spirit were issued duty-free to the charitable dispensaries and hospitals in the various provinces. Besides, 6,356 L. P. gallons of rectified spirit and 1,359 L. P. gallons of absolute alcohol were issued duty-free to the charitable dispensaries and hospitals in the various provinces, and 150·2 L.P. gallons of rectified spirit and 24·5 L.P gallons of absolute alcohol were issued duty-free to (1) the University College of Science, (2) the Calcutta Research Tannery, (3) the Corporation of Calcutta, and (4) the Scottish Churches College. The duty realized on tinctures issued from bonded laboratories at Rs. 5 per L. P. gallon on the spirit contents was Rs. 3,02,330, against Rs. 2,70,535 in the last year.

Permit-holders in Bengal (column 4) took issue of 16,078 L. P. gallons of rectified spirit on payment of Rs. 80,390 as duty.

The gradually increasing control of the department over the manufacture of spirituous medicinal preparations has resulted in a steady improvement in the quality of the preparations, as under Government orders all bonders as well as permit-holders were required to manufacture spirituous medicinal preparations appearing in the British Pharmacopœa strictly in accordance with directions laid down therein. In the case of preparations other than B. P., manufacturers were required to submit formulæ for the approval of the department, and they were made to adhere to the recipe in respect of which sanction was given. A sample of every preparation was required to be sent to the Chemical Examiner for analysis. In all the laboratories the Analytical Branch was improved to test the alkaloids, and the manufacture, bottling, storage, etc., of poisonous and non-poisonous preparations were completely and effectively separated.

One new bonded laboratory was opened in Calcutta for the manufacture of spirituous medicinal preparations in bond by the Union Drug Company, Limited, in April 1927.

38. **Issues of rectified spirit and absolute alcohol from bonded laboratories and distilleries for medicinal industrial and other purposes on payment of full duty.**—Four thousand, six hundred and ninety-eight L. P. gallons of rectified spirit and absolute alcohol were sold on payment of full duty from the bonded laboratories and 1,611 L.P. gallons of rectified spirit were sold from distilleries to licensed retail vendors of rectified spirit and to chemists and druggists for medicinal and other industrial purposes.

SECTION IV.—Hemp Drugs.

GANJA.

44. **Retail licenses.**—The total number of licenses issued in the Presidency for the retail sale of *ganja* was 1,218, against 1,215 in 1925-26. The following new shops were opened during the year, with the approval of the local Excise Advisory Committees, to meet legitimate local demand, *viz.*—Burdwan (1), Birbhum (1), Jessore (1), Khulna (1), Dacca (2), and Chittagong (1).

Four shops were abolished as being unnecessary, *viz.*—Midnapore (1), and Calcutta (3).

45. **Consumption.**—The total quantity of *ganja* consumed in the Presidency amounted to 1,691 maunds and 38 seers, against 1,786 maunds and 33 seers - a net decrease of 94 maunds and 35 seers or 5·3 per cent. The sole reason for this decrease in consumption was the increase in retail price from Rs. 87-8 to Rs. 97-8 per seer, ordered by Government with effect from 1st April 1926.

The consumption fell off in 20 districts and increased in 7 districts, *viz.*, Dacca, Mymensingh, Faridpur, Tippera, Bogra, Rajshahi and Khulna. The increase in Rajshahi and Khulna was nominal, while in the other districts it ranged from 2 per cent. to 5 per cent.

46. **Total revenue.**—The receipts for the year amounted to Rs. 47,67,560, against Rs. 43,60,085 in the previous year, the net increase being Rs. 4,07,475. The revenue from license fees decreased by Rs. 1,41,991, and the gola rent by Rs. 166 and that from duty increased by Rs. 5,49,632. The increase in revenue, in spite of the decrease in consumption, was due to the increase in duty from the beginning of the year.

47. **Incidence of taxation.**—The incidence of license fee per seer of *ganja* consumed was Rs. 36·7, and that of duty Rs. 32. The total taxation was Rs. 68·7 per seer, as compared with Rs. 58·7 in the previous year.

* * * *

50. **Cultivation and outturn of ganja at Naogaon in Rajshahi.**—The following figures indicate the position regarding the operations of *ganja* cultivation in Naogaon in Rajshahi district during the last 6 years:—

Year.	Number of cultivators licensed.	Area licensed.	Total Outturn.	Average outturn per bigha.		Total exports from Naogaon.
		Bighas.	Mds.	Mds.	Seers.	Mds.
1921-22 ..	2,858	2,790	5,330	1	13	4,885
1922-23 ..	3,033	2,899	4,761	1	25	4,723
1923-24 ..	3,681	2,899	8,641	2	38	3,935
1924-25 ..	3,310	2,002	6,089	3	13	4,202
1925-26 ..	3,099	1,701	4,598	2	24	4,961
1926-27 ..	2,996	1,800	5,256	2	36	4,722

The area sanctioned for cultivation during the year 1926-27 was 1,800 bighas, and this was based on the principle explained by me in detail in paragrah 50 of the report for the year 1925-26. The average outturn per bigha was

more satisfactory than during the preceding year and assurance of a proper price has increased the interest of individual cultivators to get as good an outturn as possible from the area cultivated.

There was no case of surrender of any license, and no license was cancelled during the year. The area actually cultivated was 1,812 bighas, 11 cottahs and 1 chittak, against 1,755 bighas, 17 cottahs and 13 chittaks of the last year.

The condition of the crop was uniformally favourable till the 3rd week of January. During the latter part of January and the beginning of February, however, some damage was done to the crop by insects and by plant diseases commonly known as "Gorejala" and "Ambala."

* * * *

BHANG.

55. **Licenses and revenue.**—There were 316 retail licenses for the sale of *bhang* in the year under review, against 318 in the previous year. Three new licenses were granted in the 24-Parganas and one in Burdwan, with the approval of Excise Advisory Committees, to meet ascertained local demand, while 4 licenses were abolished in Calcutta and 1 each in the districts of Midnapore and Murshidabad.

The total number of druggists' permits issued was 518, as compared with 470 of the preceding year.

The total revenue from license fees and duty amounted to Rs. 1,85,310, as compared with Rs. 2,12,745 in 1925-26—a decrease of Rs. 27,435—with a decrease in consumption by 29 maunds and 18 seers.

56. **Consumption.**—The principal demand for *bhang* as in the previous years was confined to most of the West Bengal districts. In most of the districts of East Bengal, the demand for its use as an intoxicant is very small. The total consumption in the Presidency amounted to 407 maunds and 19 seers, as compared with 436 maunds and 37 seers in the previous year—a decrease of 29 maunds and 18 seers. The most noticeable fluctuation was a decrease of 29 maunds and 31 seers in Calcutta, as compared with the figure of the previous year. This decrease was principally due to the temporary exodus of many upcountry men (who are the principal consumers of the drug) from the metropolis, on account of the communal troubles last year.

57. **Exports.**—Three maunds and 10 seers of duty-paid *bhang* were exported from Hooghly to French Chandernagore, against 3 maunds and 30 seers in the previous year. Twenty-one seers of duty-paid *bhang* were supplied from Comilla to the adjacent state of Tripura, against 25 seers in the previous year.

58. **Abuse.**—The abuse of medicinal preparations prepared from *bhang* like Madanananda Modak, Kameswar Modak, etc., received very salutary check during the year, on account of the restrictive measures introduced by Government and referred to in paragraph 4 (7) of the report for the year 1925-26.

CHARAS.

59. **Licenses and revenue.**—The total number of retail licenses was 34, against 35 in the previous year, one shop having been abolished in Calcutta. The total number of wholesale licenses was 3, against 3 in the previous year. The total receipts amounted to Rs. 3,03,105, as compared with Rs. 2,66,007 in 1925-26—an increase of Rs. 37,098. There was a fall of Rs. 14,024 under the head "License fees" due to fall in the consumption of the drug in retail shops, but there was an increase of Rs. 51,122 under the head "Duty," owing to the enhancement of duty on the drug from Rs. 30 to Rs. 50 per seer with effect from the 1st April 1926.

60. **Import, export and consumption.**—The total quantity of *charas* imported into the Presidency was 65 maunds and 30 seers, against 69 maunds and 17 seers in the preceding year. The drug was, as usual, imported by the wholesale dealers of Calcutta and Birbhum direct from the Punjab and supplied to the retail vendors in the districts. The total issue to retail shops in the Presidency amounted to 64 maunds and 18 seers, as compared with 68 maunds and 31 seers in the preceding year, while the consumption in Calcutta amounted to 40 maunds and 32 seers, against 45 maunds and 21 seers in the previous year.

One maund and 4 seers of *charas* were exported to French Chandernagore during the year, against 6 seers exported during the previous year.

SECTION V.—Opium.

* * * *

61. **Restricted supply of opium.**—There was no change in the system of restricted supply of opium to shops in several districts in the Presidency.

62. **Consumption.**—The consumption of excise opium during the year under report was 994 maunds and 32 seers, as compared with 998 maunds and 25 seers in the preceding year, showing a decrease of 3 maunds and 33 seers.

Analysing the figures for the year, it appears that the increase in the retail price of opium in the four metropolitan districts of Calcutta, the 24-Parganas, Hooghly and Howrah, referred to in paragraph 62 of my report for the year 1925-26, was still effective to keep down consumption in the above areas, and the figures further went down by 858 seers, which represented a decrease of 4 per cent.

The consumption showed decrease in three other districts, while it increased in the rest of the Presidency by 736 seers, which represented an increase of 4·7 per cent. The increase was not, however, excessive in any district, and was due to better economic conditions and stricter supervision over shops.

The question of opium consumption in the Presidency underwent further examination towards the close of the year on receipt of a despatch from the Secretary of State for India in which he referred to the fact that there were certain areas in which the rate of consumption very largely exceeded the League of Nations' standard of six seers per 10,000 of population per annum, and suggested that Committees of Enquiry be appointed to investigate the causes of excessive consumption in the worst areas. In seventeen districts in the Presidency the consumption was less even than the League of Nations' standard; in others it was in excess: in Calcutta and the neighbouring industrial areas of Serampore and Barrackpore the consumption was more than five times the standard.

Government have, since the close of the year, appointed a Committee composed of two officials and two non-officials to investigate more fully into the reasons for high consumption in the above areas, and to submit its recommendations regarding further steps which may be taken to check the abuse of the drug in these areas, so far as it may exist. It may here be noted, however, that the consumption of other intoxicants too, *viz.*, liquor, and other drugs like *ganja*, *charas* and *bhang*, is also relatively higher in the above areas than in the rest of the urban or rural areas in the Presidency.

63. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of excise opium was 861, as compared with the same number in the previous year. Five new shops were opened, *viz.*, 1 each in Jessore, Tippera and Jalpaiguri, and 2 in Noakhali. Five shops were abolished, *viz.*, 2 in Calcutta and 1 each in Khulna, Mymensingh and Rajshahi.

64. **Permits and licenses under the Opium and Morphia Rules.**—The total number of permits and licenses issued was 1,457, as compared with 1,430 in the previous year. The number includes 34 licenses issued to manufacturing chemists, 541 to dispensing chemists, 69 to kabirajes and hakims and 64 permits to permit-holders (total 708 for intoxicating drugs), and 41 licenses issued to dealers, 584 to chemists, 45 to persons approved under Rules 21 (1) and 21 (2) of the Morphia Rules and 79 to persons authorised under Rule 22 of the same rules (total 749 for morphia drugs). The increase in the number of licenses was due to increase in the number of chemists and druggists in many districts in the Presidency.

65. **Revenue.**—The total receipts amounted to Rs. 48,15,300, as compared with Rs. 46,29,635 in 1925-26, showing an increase of Rs. 1,85,665. The increase was due to enhancement of duty on opium in the districts of Hooghly, Howrah, the 24-Parganas and Calcutta given effect to from 1st September 1925.

66. **Abuse of opium and morphia.**—The use of morphia as a substitute for opium does not appear to have been prevalent in any district. Regarding the measures taken to discourage the practice of administering opium to children, the Director of Public Health,

Bengal, has reported that the Publicity Officer kept the subject in view and mentioned it in some of his public addresses last year, but as the practice did not appear to be prevalent in the Presidency of Bengal, there was little scope for publicity work in regard to it. The question is under the consideration of the Calcutta Opium Enquiry Committee now sitting.

* * * *

SECTION VI.—Cocaine.

* * * *

69. **Licenses and revenue.**—Four hundred and twenty licenses were issued during the year to chemists and druggists for the sale of cocaine on prescriptions of qualified medical practitioners, as compared with 391 in 1925-26. Seventy-five permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision. Forty-eight permits were issued to qualified medical practitioners and dentists.

70. **Preventive operations and illicit transactions** in cocaine have been dealt with in paragraph 72, section VII of the report.

* * * *

SECTION VII.—Offences against the excise and opium laws.

* * * *

72. **Prosecutions and convictions.**—The prosecutions and convictions during the year, as stated below, did not show much noticeable fluctuation in regard to the number of cases and persons prosecuted :—

	1925-26.	1926-27.
Number of cases prosecuted ..	5,958	5,706
Number of cases convicted ..	5,778	5,498
Number of persons prosecuted ..	6,282	6,134
Number of persons convicted ..	5,889	5,546

The decrease in excise prosecutions occurred principally in the districts of the 24-Parganas (676), Hooghly (134) and Burdwan (97). In the 24-Parganas, the decrease was mainly due to the disposal of 1,205 offences regarding *tari*, under section 65 of the Bengal Excise Act, instead of by prosecution in Courts. In Hooghly the decrease was mainly due to less number of detections of *tari* and *pachwai* cases and, in Burdwan, the fall was due to decrease in the number of illicit *pachwai* cases. The number of prosecutions showed marked increase in Midnapore (284), Birbhum (137), Bankura (96) and Khulna (62).

The situation regarding excise offences in the Presidency was clearly explained by me in paragraphs 74 to 77 of my report for the year 1925-26, and there were no new factors to be noted regarding the course and method of illicit practices in intoxicating articles in the Presidency.

The departmental officers successfully tackled offences against the excise and opium laws and regulations in most of the districts, and there was noticeable improvement in detection work in Calcutta, Midnapore, Birbhum, Darjeeling, Rajshahi, Dacca, Mymensingh and Chittagong.

Offences committed by licensees also received adequate attention in most of the districts.

The total seizures of illicit crude opium on its way to Burma and the Far East, through Bengal and Calcutta, were as follows during the last 3 years :—

	Mds.	Srs.
1924-25 ..	31	17
1925-26 ..	44	8
1926-27 ..	60	22

Of the total quantity of illicit opium seized during the year 1926-27 in Bengal, 31 maunds and 21 seers were seized by the Excise Detective Staff in Calcutta, 7 maunds and 38 seers by the Railway Excise Staff, 5 maunds and 20 seers by the Excise Staff in districts, 13 maunds and 1 seer by the Customs Detective Staff, and 2 maunds and 32 seers by the Police Staff in Calcutta and Howrah.

Several important arrests and prosecutions for illicit import and possession of opium were made during the year, and I shall mention only a few cases of special interest in a subsequent paragraph.

The total seizures of cocaine during the past three years are noted below :—

	Ozs.	grs.
1924-25 .	1,432	112
1925-26 .	2,023	27
1926-27 .	701	50

Of the total quantity of cocaine seized during the year 1926-27, 614 ounces were seized by the Customs Detective Staff on board the vessels in the Port of Calcutta, 48½ ounces by the Calcutta Excise Detective Staff, and 28 ounces by the Excise Staff in the mufassal districts and 10½ ounces by the Police Staff in Calcutta and Howrah.

The efforts to tackle the principal offender and their associates engaged in the illicit traffic in opium and cocaine in Calcutta and to prosecute the offenders successfully, were persistently continued throughout the year with satisfactory results, and the department is thankful for the co operation it received from the Police and Customs Officials. The illicit traffic inside the city, as well as at the railway termini, was principally looked after by the Excise Detective Staff in co operation with the Police officers, while the illicit traffic on board the vessels in the port and on the jetties was looked after mainly by the Customs Detective Staff. This arrangement has worked with gradually increasing success from year to year, and a larger degree of co-operation amongst the officials of the several departments has been secured.

RESOLUTION.

POLITICAL.

Simla, the 6th October 1927.

No. D.-4169.—The question of the adequacy of the censorship exercised over cinematograph films in India has been attracting for some time past increasing public attention and has more than once been brought to the notice of the Government of India by resolutions in the Indian Legislature. The Government of India came to the conclusion that the subject was one of sufficient importance and complexity to demand a thorough enquiry by a special committee, which will take evidence and obtain opinions from all parts of India. At the same time the question had been raised by a resolution of the Imperial Conference of 1926 whether the various parts of the Empire could take any steps to encourage the exhibition of Empire films. As all Governments of the Empire have been invited to consider this question, it appeared to the Government of India that it would be appropriate that it should be examined by the proposed Committee. This extension of the scope of the Committee's enquiry would also enable it to address itself to a question which may have a far-reaching influence on the development of the cinematograph in India, namely, the possibility of encouraging the production and exhibition of Indian films.

2. A resolution embodying these proposals was moved on behalf of Government during the last session in both Houses of the Legislature. The resolution was passed without dissent in the Council of State, while in the Legislative Assembly the discussion was adjourned on the understanding that Government would be free to proceed with their proposals.

3. Accordingly the Governor General in Council has decided to appoint a Committee which will start work at an early date. The terms of reference will be as follows :—

(1) to examine the organization and the principles and methods of the censorship of cinematograph films in India ;
(2) to survey the organization for the exhibition of cinematograph films and the film producing industry in India ;
(3) to consider whether it is desirable that steps should be taken to encourage the exhibition of films produced within the British Empire generally and the production and exhibition of Indian films in particular ; and to make recommendations.

4. The Committee will be composed as follows :—

Chairman.

1. Dewan Bahadur T. Rangachariar, C.I.E., Vakil, High Court, Madras.

Members.

2. The Hon'ble Khan Bahadur Sir Ebrahim Haroon Jaffer, Kt.
3. Colonel J. D. Crawford, D.S.O., M.C., M.L.A.
4. Mr. K. C. Neogy, M.L.A., Vakil, High Court, Calcutta.
5. Mr. A. M. Green, I.C.S., Collector of Customs and Member of Bombay Board of Film Censors.
6. Mr. J. Coatman, M.L.A., Director of Public Information.

Mr. G. G. Hooper, M.C., I.C.S., will act as Secretary to the Committee.

5. The Committee will visit important centres, and will take evidence on the questions stated in the terms of reference. Persons who desire to be called as witnesses should apply in writing to the Secretary, care of Home Department, Government of India, Simla, giving their full names and addresses together with a brief memorandum of the points in regard to which they desire to give evidence. It will of course rest with the Committee to decide what evidence they will hear.

ORDER.—Ordered that a copy of the above resolution be published in the *Gazette of India* and communicated to all local Governments and Administrations for information. Also that a copy be forwarded to the Secretary to the Committee for information.

RESOLUTION.

No. 15039For.—The 13th October 1927.—The following resolution published by the Government of India, Department of Education, Health and Lands, is republished for general information.

F. A. SACHSE,
Secretary to the Government of Bengal.

No. 1083-F., dated Simla, the 13th September 1927.

Resolution by—The Government of India, Department of Education, Health and Lands.

The Secretary of State for India in Council, in conjunction with the Government of India, has recently had under consideration the position of Indian students who have undergone, or are now undergoing, at their own expense, a course in Forestry in the United Kingdom, but have not yet taken the entrance examination for the Indian Forest Service and have now, by reason of recent changes in the regulations governing recruitment to that service, no chance of appearing as candidates at the examination. In order to give such students an opportunity of competing at the examination held in India, the Secretary of State, in consultation with the Government of India, has decided to admit to the Indian Forest Service entrance examination to be held in this country in 1928 candidates who fall within any of the four classes named below :—

(*a*) Those who are not debarred by age from appearing at the competitive examination in 1926, *i.e.*, were under 23 then, but were too old to appear at this year's examination by reason of being over 23 on 1st April 1927 ;
(*b*) Those who had obtained a degree or diploma in forestry and were under 25 years of age on the 30th June 1926 ;
(*c*) Those who were qualified to take the examination this year but did not do so, perhaps on account of short notice, and will be age-barred next year ; and
(*d*) Those who, having obtained a diploma or degree in forestry, were under 25 on the 30th June 1927.

2. These concessions will be incorporated in the regulations for the examination to be held in India in 1928. They will apply solely to that examination. They will not operate to allow any of the candidates in question who has appeared once at the examination to appear a second time, and are confined to Indian students who are now undergoing forestry training outside India, or were undergoing such training during 1926.

ORDERED that a copy of the resolution be forwarded for information to all Local Governments and Administrations, the Public Service Commission and Inspector-General of Forests.

ORDERED that a copy be forwarded to the Foreign and Political Department for information and favour of communication to political officers and that the resolution be published in the *Gazette of India*.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Cotton Crops of Bengal, 1927-28.

[NOTE.—On an average of the five years ending 1925-26, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.]

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State, and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—During the initial stages the early crop suffered from lack of rain in Midnapore and Mymensingh and from excessive rain in the Chittagong Hill Tracts and Tripura State. Subsequently, however, the conditions improved except in the Tripura State, where scanty rainfall from July up till now hampered the growth to some extent. In Bankura the weather was favourable throughout. The present outlook is generally fair and a fair outturn is expected.

Sowings of late variety commenced in Midnapore under satisfactory conditions.

Area sown.—The area sown with the early crop is reported to be 76,773 acres this year as against 75,158 acres (revised) in the corresponding forecast of last year. Of the late crop, an area of 803 acres is reported to have been sown this year as against the same area reported in the corresponding forecast of last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Sugarcane crop of Bengal, 1927-28.

[NOTE.—On an average of the five years ending 1925-26, the area under sugarcane in Bengal has represented some 7·5 per cent. of the total area under sugarcane in British India.]

Character of the season.—As indicated in the first forecast, the weather was generally favourable both for planting and for the growth of the early crop, but subsequent scanty rainfall up to first half of May interfered with the development of the young plants, especially in some West and North Bengal districts. Although good rainfall in the latter part of May and June improved the prospects, the crop suffered much from lack of rain in July and August again. Rainfall in the beginning of September, however, has proved beneficial, and the crop is expected to be a satisfactory one for the province on the whole.

Area planted.—The total area planted with the crop for the province is reported to be 208,800 acres this year as against 199,400 and 200,800 acres reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province works out 83 per cent. of the normal this year as against 82 and 80 per cent. respectively in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 83 per cent. as against a ten years' average of 82·5 per cent. This means that the condition of this year's crop is equal to about 101 per cent. of the ten years' average.

Director of Agriculture, Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 12th October 1927.

Summary.—During the week the rainfall was generally light to moderate except in Malda, the Tripura State and parts of Burdwan, Bankura, Midnapore, Jalpaiguri, Dacca and Mymensingh where it was somewhat in excess of the normal. More rain is still needed for the growth of the standing crops and for the steeping of jute in some North Bengal districts. Reaping of autumn crops and transplantation of winter paddy seedlings are over. Preparatory tillage for spring crops and sowing of *kalai* are progressing. Distress continues to prevail in parts of Birbhum, Dinajpur and Malda. Test relief works continue at Nalhati in Birbhum, where 310 persons worked on the 10th instant and also at Patnitola and Porsha police-stations in Dinajpur where 1,262 persons are working. The average price of common rice for the province has fallen by about 1·93 per cent. as compared with that of the previous week.

COUNCIL OF STATE BILL NO. 7 OF 1927.

A Bill further to amend the Indian Succession Act, 1925, and the Married Women's Property Act, 1874.

WHEREAS it is expedient further to amend the Indian Succession Act, 1925, and the Married Women's Property Act, 1874, for the purposes hereinafter appearing; It is hereby enacted as follows :— XXXIX of 1925 III of 1874

Short title

1. This Act may be called the Indian Succession (Amendment) Act, 192 .

Amendment of sections 223 and and 236, Act XXXIX of 1925.

2. In sections 223 and 236 of the Indian Succession Act, 1925, the words "nor, unless the deceased was a Hindu, Muhammadan, Buddhist, Sikh or Jaina or an exempted person, to a married woman without the previous consent of her husband" shall be omitted. XXXIX of 1925

Insertion of new section 10 in Act III of 1874

3. After section 9 of the Married Women's Property Act, 1874, the following heading and section shall be inserted, namely :— III of 1874

"*VI.– Husband's liability for wife's breach of trust or devastation.*

Extent of husband's liability for wife's breach of trust or devastation.

10. Where a woman is a trustee, executrix or administratrix, either before or after marriage, her husband shall not, unless he acts or intermeddles in the trust or administration, be liable for any breach of trust committed by her, or for any misapplication, loss or damage to the estate of the deceased caused or made by her, or for any loss to such estate arising from her neglect to get in any part of the property of the deceased."

STATEMENT OF OBJECTS AND REASONS.

As the result of a judgment in the Bombay High Court, that Court drew attention to the advisability of altering sections 183 and 189 of the Indian Succession Act, 1865, so as to make the consent of the husband unnecessary before the grant of probate or letters of administration to a married woman, and drew attention to the provisions of sections 8 and 13 of the Probate and Administration Act, 1881. In the Indian Succession Act, 1925, which is a consolidating Act, the provisions of sections 183 and 189 of the Indian Succession Act, 1865, and of sections 8 and 13 of the Probate and Administration Act, 1881, have been reproduced in sections 223 and 236.

Sections 183 and 189 of the Indian Succession Act, 1865, were based on the English law as it then existed. Since 1865, however, the law in England has considerably changed and the consent of a husband is no longer necessary. It is desirable to bring the Indian law into conformity with English law, and amendments of sections 223 and 236 of the Indian Succession Act with this object are accordingly proposed.

In English law there is a provision that a husband is not liable for any breach of trust, loss or misapplication committed by any woman as a trustee, executrix or administratrix, unless he has acted or intermeddled in the trust or administration. It is desirable that in this respect also Indian law shall be brought into line with English law, and a new section is therefore proposed to be added to the Married Women's Property Act, 1874.

The following Bill was introduced in the Council of State on the 30th August, 1927 :—

COUNCIL OF STATE BILL NO. 10 OF 1927.

A Bill to enable bodies corporate to hold property in joint ownership.

WHEREAS it is expedient to enable bodies corporate to hold property in joint ownership ; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Bodies Corporate (Joint Ownership) Act, 1927.

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

Power for corporations to hold property as joint owners

2. (*1*) A body corporate shall be capable of acquiring and holding any moveable or immoveable property in joint ownership in the same manner as if it were an individual ; and where a body corporate and an individual, or two or more bodies corporate, become entitled to any such property under circumstances or by virtue of any instrument which would, if the body corporate had been an individual, have created a joint ownership, they shall be entitled to the property as joint owners :

Provided that the acquisition and holding of property by a body corporate in joint ownership shall be subject to the like conditions and restrictions as attach to the acquisition and holding of property by a body corporate in severalty.

(*2*) Where a body corporate is joint owner of any property, then on its dissolution the property shall devolve on the other joint owner.

STATEMENT OF OBJECTS AND REASONS.

Section 4 (*1*) (*a*) of the Indian Securities Act, 1920, lays down that when a Government security is payable to two or more persons jointly, and either or any of them dies, the security shall be payable to the survivor or survivors of those persons. Though by virtue of section 3 (39) of the General Clauses Act, 1897, " persons " includes a company or association or body of individuals, whether incorporated or not, this definition has been held to be repugnant to section 4 (*1*) of the Indian Securities Act, as a corporation or association may be dissolved but cannot die and there can, therefore, be no survivorship as contemplated in the latter section. Thus the law as it stands precludes the possibility of a Government promissory note being held by a corporate body jointly with an individual or with another corporate body. The position as regards joint ownership of this nature was the same in England before the passing of the Bodies Corporate (Joint Tenancy) Act, 1899.

In accordance with the above view of the law, Government and the Public Debt Offices have been treating as invalid all endorsements on Government promissory notes in favour of a company jointly with an individual. The Public Debt Office, Bombay, has been addressed on more than one occasion by corporate bodies regarding the admissibility of joint ownership of Government securities on the lines recognised by the law in England, and the Controller of the Currency has recently reported that instances of such endorsements are coming to his notice and that he has been compelled to treat them as invalid. It is, therefore, necessary to undertake legislation to remove this technical difficulty. But as there is no reason why the principle of joint ownership should be confined to securities only, it is proposed to legislate generally on the lines of the Bodies Corporate (Joint Tenancy) Act, 1899.

The following Bill was introduced in the Council of State on the 30th August, 1927 :—

COUNCIL OF STATE BILL NO. 11 OF 1927.

A Bill further to amend the Presidency-towns Insolvency Act, 1909, for certain purposes.

WHEREAS it is expedient further to amend the Presidency-towns Insolvency Act, 1909, for the purposes hereinafter appearing ; It is hereby enacted as follows :— III of 1909.

Short title.

1. This Act may be called the Presidency-towns Insolvency (Amendment) Act, 192 .

Amendment of section 7, Act III of 1909.

2. To section 7 of the Presidency-towns Insolvency Act, 1909 (hereinafter referred to as the said Act), the following proviso shall be added, namely :— III of 1909.

"Provided that, unless all the parties otherwise agree, the power hereby given shall, for the purpose of deciding any matter arising under section 36, be exercised only in the manner and to the extent provided in that section."

Amendment of section 15, Act III of 1909.

3. After sub-section (*2*) of section 15 of the said Act, the following sub-section shall be added, namely :—

"(*3*) On the making of the order admitting his petition, a debtor shall—

(*a*) unless the Court otherwise directs, produce all his books of account, and

(*b*) file such lists of creditors and debtors and afford such assistance to the Court as may be prescribed,

failing which the Court may dismiss his petition."

Amendment of section 36, Act III of 1909.

4. In sub-sections (*4*) and (*5*) of section 36 of the said Act, for the words "If, on the examination of any such person, the Court is satisfied," the words "If on his examination any such person admits" shall be substituted.

Amendment of section 112, Act III of 1909.

5. After clause (*k*) of sub-section (*2*) of section 112 of the said Act, the following clause shall be inserted, namely :—

"(*kk*) filing of lists of creditors and debtors and the affording of assistance to the Court by a petitioning debtor."

STATEMENT OF OBJECTS AND REASONS.

Section 7 of the Presidency-towns Insolvency Act, 1909 (III of 1909), gives the Insolvency Court, subject to the provisions of the Act, full power "to decide all questions of priorities, and all other questions whatsoever, whether of law or fact, which may arise in any case of insolvency coming within the cognisance of the Court, or which the Court may deem it expedient or necessary to decide for the purpose of doing complete justice or making a complete distribution of property in any such case".

Section 36 empowers the Court *inter alia* to summon before it any person "supposed to be indebted to the insolvent," and to require such person to produce before it any documents in his custody or power relating to the insolvent, his dealings or property. If on such examination of such person, the Court is satisfied that he is indebted to the insolvent, it may, on the application of the Official Assignee, order him to pay to the Official Assignee the amount in which he is indebted. This section taken alone does not empower a Court to enquire into and decide a claim which the alleged debtor does not admit.

2. The two sections are to some extent opposed to each other, and the practice of the Courts, as a result, is not uniform. The Calcutta High Court gives the greater weight to section 36 on matters coming within the scope of that section, and realises debts from debtors of the insolvent only when those debts are admitted. The Madras High Court, on the other hand, gives greater weight to section 7 and decides, as part of the insolvency proceedings, disputes between the Official Assignee and the alleged debtors of the insolvent. The Civil Justice Committee discussed the matter in paragraph 29 of Chapter XIV of their report (page 241).

3. It is considered expedient to amend the Act so as to secure uniformity of practice, and references to the various High Courts have shown that the Calcutta practice is generally preferred. Clauses 2 and 4 of the Bill secure that this practice shall be generally followed and are designed to remove the opposition between section 7 and section 36 by providing that the latter section shall prevail in matters falling within its scope. The amendments are so drafted that they will not prevent the Court from deciding a dispute between the parties concerned if they submit themselves to its jurisdiction

4. The amendments to section 36 also help to make the position clear, and bring the wording of that section into line with section 25 of the English Bankruptcy Act of 1914.

5. Further, under section 112 of the Act, the Bombay and Rangoon High Courts have made rules under which every debtor who files a petition for adjudication as an insolvent is obliged to lodge forthwith in the office of the Official Assignee all books, papers, writings, accounts, and vouchers relating to his estate with a list thereof signed by himself, and also a statement of his moveable and immoveable estates. The Calcutta High Court has, as a matter of practice but without making any rules, similarly required such a petitioner, except when very special reasons to the contrary were shown to exist, to lodge his books of account, explain the position of his affairs to the Official Assignee, and furnish a list of the names and addresses of all debtors and creditors, before the passing of an adjudication order. This practice has been declared to be *ultra vires* in a judicial decision of that Court, and as the legality of the rules framed by the other High Courts in this matter might also be successfully challenged, it is proposed to amend sections 15 and 112 of the Act in the manner indicated in the Bill. Clauses 3 and 5 are intended to give effect to this proposal.

The following Bill was introduced in the Legislative Assembly on the 18th August, 1927 :—

L. A. BILL NO. 38 OF 1927.

A Bill to amend the law relating to the fostering and development of the bamboo paper industry in British India.

WHEREAS it is expedient to amend the law relating to the fostering and development of the bamboo paper industry in British India; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bamboo Paper Industry (Protection) Act, 1927.

Amendment of Act VIII of 1894.

2. (*1*) In the Second Schedule to the Indian Tariff Act, 1894, there shall be made the amendment specified in the Schedule to this Act. VIII of 1894.

(*2*) The amendments made by sub-section (*1*) shall have effect up to the 31st day of March, 1932.

Retrospective effect in certain cases.

3. VIII of 1894. VIII of 1878.

Amendment of Act XXV of 1925

4. The second item of the Schedule to the Bamboo Paper Industry (Protection) Act, 1925, is hereby repealed. XXV of 1925.

THE SCHEDULE.

AMENDMENTS TO BE MADE IN SCHEDULE II TO THE INDIAN TARIFF ACT, 1894.

(*See section 2.*)

For Items Nos. 155 and 156, the following shall be substituted, namely :—

"155	PRINTING PAPER (excluding chrome marble, flint, poster and stereo), all sorts which contain no mechanical wood pulp or in which the mechanical wood pulp amounts to less than 65 per cent. of the fibre content.	Pound.	One anna.
156	WRITING PAPER—		
	(*a*) Ruled or printed forms (including letter paper with printed headings) and account and manuscript books and the binding thereof.	Pound.	One anna or 15 per cent. *ad valorem*, whichever is higher.
	(*b*) All other sorts	,,	One anna"

STATEMENT OF OBJECTS AND REASONS.

This Bill amends in three respects the Bamboo Paper Industry (Protection) Act, 1925, which added entries 155 and 156 in the Import Tariff Schedule (Schedule II to the Indian Tariff Act, 1894).

2. Firstly, by entry 155 a protective duty of one anna per pound was imposed on printing paper containing less than 65 per cent. of mechanical wood pulp, the intention being to exclude newsprint (which usually contains 65 per cent. or more of mechanical pulp) from the protective duty, and leave it under the revenue duty of 15 per cent. *ad valorem*. It has recently been held, however, that entry 155, as worded, excludes from the protective duty not only 'newsprint' as defined by the Tariff Board, but also paper containing no mechanical wood pulp at all. The effect is that the protective duty does not apply to a class of imported paper with which paper manufactured in India particularly competes, and to this extent the Act fails of its intended purpose.

This Bill, therefore, makes printing paper containing no mechanical woold pulp liable to the protective duty of one anna per pound, with retrospective effect from the 21st September, 1925, the date on which the Bamboo Paper Industry (Protection) Act became law.

The Bill also empowers the Governor-General in Council to recover the difference between the protective duty and the duty at 15 per cent. *ad valorem* in the case of all paper containing no mechanical wood pulp on which duty has been paid at 15 per cent. *ad valorem* only, and which was imported between the 21st September, 1925, and the date on which this Bill becomes law.

3. Secondly, for more than a year after the passing of the Act, the Customs authorities calculated the percentage of mechanical wood pulp mentioned in entry 155 on the fibre content of the paper; but in January, 1927, it was held that the entry, as worded, required that the percentage should be calculated on the *total weight* of the paper, including 'loading'. It was represented by importers that the effect of this interpretation was to bring within the scope of the protective duty large quantities of imported 'newsprint' which it was the intention of the Legislature to exclude, and the Tariff Board was, therefore, asked to report whether any, and if so what, changes were desirable in those entries in the Tariff Schedule which regulate the duty payable on newsprint.

The Board has recommended that entry 155 should be amended so as to make it clear that the percentage is to be calculated on the fibre content and not on the total weight. The effect will be to exclude from the operation of the protective duty certain classes of newsprint which were actually excluded up to January, 1927, but have since been included. This Bill gives effect to the Tariff Board's recommendation.

4. Thirdly, by entry 156 a protective duty of one anna per pound was imposed on writing paper, including ruled or printed forms and account and manuscript books and the binding thereof. It has been represented that this protective duty is in some cases substantially less than the former revenue duty of 15 per cent. *ad valorem*. Thus the Act is not only causing an unnecessary loss of revenue, but is also depriving the printing trade in India of the tariff assistance which it previously enjoyed. This Bill, therefore, amends entry 156 so as to make the duty one anna per pound or 15 per cent. *ad valorem*, whichever is higher.

DARJEELING, THE 8TH OCTOBER 1927.

RESOLUTION—No. 86T.-P.H.

READ—

The report on the working of the Asansol Mines Board of Health for the year 1926-27.

The constitution and personnel of the Board remained unchanged during the year under review.

Eleven ordinary and eight special meetings were held during the year : one special meeting failed for want of quorum.

The total income of the Board including an opening balance of Rs. 90,130 amounted to Rs. 2,25,955 during the year, of which Rs. 1,10,342 was collected from mine-owners and Rs. 20,508 from receivers of royalties.

The decrease was due to the reduction in the rate of cess. Miscellaneous receipts rose from Rs. 1,913 to Rs. 2,032. The total expenditure amounted to Rs. 1,20,328, leaving a closing balance of Rs. 1,05,628. This large balance is explained by (*a*) better collection of cess during the year and (*b*) the fact that owing to the non-completion of land acquisition proceedings the building programme for the year could not be carried out.

3. Owing to wholesale re-vaccination the epidemic of small-pox which threatened the mining settlement from the previous year was held in check, and there was a considerable fall in the number of cases from the month of May 1926. The total number of cases recorded during the year was 1,374, of which 162 cases proved fatal as against 1,129 cases with 126 deaths during the previous year. The number of primary and secondary vaccinations performed during the year was 16,736 and 46,096 as against 18,775 and 65,795, respectively, during the preceding year.

4. The settlement was practically free from malaria, the number of cases and deaths from this disease being much below the average. There was no case of plague or of epidemic dropsy throughout the year. There were altogether 815 cases of cholera with 462 deaths as against 415 seizures with 206 deaths in the previous year. It is satisfactory to note that the spread of the disease was in all cases prevented by the various routine measures of disinfection carried out by the Board's staff and by the regular administration of essential oils, cholera prophylactic to all house contacts.

The birth-rate decreased from 30·20 per mille to 26·16, while there was an increase in the death-rate which was 18·48 against 16·83 per mille in the preceding year. The total number of births recorded during the year was 8,733 against 9,945 in 1925-26, while the number of recorded deaths increased from 5,544 to 6,086.

There was an increase in the rate of infantile mortality which was 138 per thousand of births registered against 120 during the preceding year. The infantile mortality rate for the year under review, though a little higher than that of the previous year, continues to compare favourably with that recorded anywhere else in India. It is gratifying to note that as, in previous years, not a single maternal death occurred amongst several hundred deliveries attended by the Board's midwives.

The Board continued to pay attention to such special measures as anti-malarial investigation, improvement of rural water-supply, medical inspection of school children, and delivery of weekly lectures by the sanitary assistants in primary schools on hygiene and public health, while the midwives of the Board, in addition to their specific duties, paid house to house visits and delivered simple lectures on the general principles of cleanliness and domestic hygiene to women of the settlement.

The sanitary administration of the settlement area maintained the same degree of efficiency as in the preceding year. The Government of Bengal desire once more to congratulate the Board on the high standard of their administration.

It may, however, be added that the value of the reports submitted by the Board would be greatly enhanced if they contained more detailed information regarding health conditions in the various parts of the area under the Board's control. When full effect has been given to the Bengal rural public health organization scheme the whole province, apart from certain outlying areas, will be provided with a sanitary staff similar to that employed by the Board but dealing with larger units of area and less thoroughly equipped with funds and legal powers. The experience gained on the data collected by the Asansol Mines Board of Health should be at the disposal of the Department of Public Health in the completest possible form to assist that department in directing the activities of the staff employed under the rural public health organization scheme.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th October 1927.

Summary.—During the week the rainfall was light to moderate in East and in parts of North Bengal excepting in the district of Chittagong where the fall was heavy. Elsewhere it was generally scattered. More rain is badly needed especially in the Burdwan and in parts of the Rajshahi Divisions for the growth of standing crops. Preparatory tillage for and sowings in some places of spring crops continue satisfactorily except in Malda where the progress is slow for want of adequate rain. Distress continues to prevail in parts of Birbhum, Dinajpur and Malda. Test relief works continue at Nalhati in Birbhum, where 114 persons worked on the 16th instant and also at Patnitola and Porsha police-stations in Dinajpur where 1,318 persons worked on the 11th instant. The average price of common rice for the province has risen by about 1·66 per cent. as compared with that of the previous week.

(8) The ordinary session of the Final Examination for the testing of riding will take place in advance of the rest of the Final Examination, and a special session will, when necessary, be held at a later date for the benefit of any candidate who may have failed at the ordinary session.

Candidates who at the ordinary session satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed.

Candidates who at the ordinary session fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government.*

Any candidate who at the ordinary session fails to show a minimum proficiency will be examined again at a special session. If he then attains adequate proficiency he will not be subjected to further tests in India. If he attains minimum proficiency he will be allowed to proceed to India under the same condition as if he had attained minimum proficiency at the ordinary session. No credit in marks will be given for any performance at a special session.

Probationers may also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(9) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(10) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(11) The selected candidates whose performance in the compulsory subjects† of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character, and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the Regulations in force, at the time, for that Service.

(12) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council:—

(*i*) Selected candidates will be alloted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.

* Such candidates will receive no increase to their initial pay until they have passed the further tests in question to the satisfaction of their Local Government.

† The compulsory subjects include riding, and a candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

(*ii*) An allowance of £300 a year, or, in the case of selected candidates possessing an Indian domicile, an allowance of £150 a year, will be given to any candidate who passes his probation at one of the universities or other institutions that have been approved for the purpose by the Secretary of State for India in Council.

In the case of selected candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively: December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of selected candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the seventh on the six following quarter days, and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the Secretary of State through the Civil Service Commissioners of a certificate that the candidate has fulfilled up to date the requirements of the authorities and shown satisfactory conduct at the approved institution.

If an Indian Government scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate. He may, however, provided he has executed the agreement referred to in (*iv*) below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.

The whole probation must ordinarily be passed at the same institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N.B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1928, with a view to a possible reduction with effect from the instalment payable in December, 1928.

(*iii*) A first class passage to India will be engaged for selected candidates with a view to their proceeding to India during the November following their Final Examination.

(*iv*) Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of—

(*1*) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or

(*2*) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(*v*) All candidates obtaining certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(*vi*) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (*10*) of the Regulations.

(*vii*) Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.

(*viii*) "Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.

3. No roof of any house shall be built overhanging any public drain or public road, nor shall any other portion of the house project beyond the line of houses on both sides.

4. Models and type-plans of privies approved by the Commissioners in meeting, with estimates of the cost of constructing privies in accordance therewith, shall be kept in the municipal office and shall be open to inspection by any person at all reasonable times without charge, but no person shall be bound to construct any privy in accordance with any such model or type-plan, if the same be constructed in accordance with the other rules on the subject contained in these rules.

5. (1) A drain must be provided for every privy.

(2) Such drain must be constructed of some impervious material and must connect the floor of the privy—

(*c*) the said receptacle must be water-tight and must be made of metal, well-tarred earthenware or glazed stoneware, and must be of such construction and shape as will admit of its being easily removed and emptied of its contents,

(*b*) A medical officer licensed by the Embarkation Agent, Goalundo.

77. Persons other than emigrants may be accommodated on board the same vessel with the emigrants and on the same deck provided that the total number under conveyance does not exceed the maximum number specified in the license; but such persons shall on no consideration be permitted to locate themselves within the spaces specially allotted for the use of emigrants proceeding under the Act.

78 Horses, pigs and other animals shall not be allowed on the same deck with the emigrants.

81. The medical officer shall insist upon the establishment specially entertained for attendance on the emigrants discharging their duties punctually and properly; and the master shall render all the assistance in his power to the medical officer, in order that he may maintain discipline on board and conform strictly with all the requirements of the rules regulating transport.

Peons, garden sardars or other persons in charge of emigrants shall obey the instructions of the master and the medical officer, and shall immediately report to them any neglect of duty or occurrence of disease or accidents or disagreements affecting the emigrants. The master and the medical officer shall thoroughly investigate the matter under report as soon as possible thereafter.

83. Peons and sardars shall have their day and night duties fairly divided and clearly defined. When there are sick emigrants in hospital, peons, sardars and topazes shall be deputed to hospital duty so that the sick may constantly be cared for, and the attendants on duty shall be regularly relieved by others in rotation. The careful night nursing of the sick by the attendants shall be strictly insisted on and looked to by the medical officer.

84. As soon after the embarkation as possible, the emigrants shall be comfortably berthed and their bundles searched for any indigestible food, grain or old rags they may have contrived to take with them, all of which shall be thrown overboard or burned either in the engine furnaces or on shore in the presence of the medical officer This precaution shall receive repeated attention throughout the passage

85. It shall be the duty of the steamer companies to adopt such measures as may be considered necessary for preventing the sale of unwholesome food to emigrants at the steamer ghats.

86. The decks shall be swept morning and evening and after every meal and shall always be kept clean and dry, but shall be washed only when weather, time and other circumstances permit the emigrants being landed or accommodated on another deck till their deck is thoroughly dry. The emigrants' deck space shall not be encroached upon in any way by either crew or passengers other than emigrants, nor shall they be permitted to interfere with the emigrants.

87. The latrines shall be constantly cleaned and disinfected. Attention shall also be paid to the cleanliness and disinfection of the bed-pans when in use.

88. Whenever the weather permits, the side curtains shall be raised to admit of free perflation of air, and under all circumstances thorough ventilation shall be promoted by every available means.

89. The emigrants on rising in the morning shall, after well shaking them, fold and sling their blankets out of the way.

90. The emigrants shall be mustered every morning and examined by the medical officer. Those who are well shall, weather permitting, bathe daily, and wash their clothes at least twice a week.

91. Emigrants' clothes, mats and blankets shall be aired and put in the sun as often as possible, especially after damp weather.

92. Rations shall be issued daily by the medical officer according to the scale prescribed in schedule A, and sufficiently early to admit of the food being prepared for distribution punctually at 9 o'clock in the forenoon and 4 o'clock in the afternoon; and all such issues, as well as those of medical comforts, shall immediately thereafter be entered by such officer in the prescribed provision and other lists, and certified by him and the master concerned. Boiling rice in bad water shall not be permitted; and when the food is ready, the medical officer shall invariably satisfy himself as to its being properly cooked, and shall see that it is fairly distributed. Stale food shall not be kept by either cooks or emigrants and all utensils shall be cleaned out and shown to the medical officer after each meal. Motherless infants and invalids shall have suitable and freshly prepared food (milk, soup, sago, etc.), ordered for them every three or four hours.

In the case of those emigrants who object to eat the food prepared for them on board, flour, in the prescribed quantity, shall be supplied to them, together with the other articles of uncooked rations (except rice) prescribed in schedule A, and every facility shall be afforded them to cook their own food. Should they, however, prefer it, they may be supplied with *chura* and *gur* or *suttoo*, according to choice.

93. A constant supply of good drinking water shall be kept up in the tanks. These shall be used alternately, the water in each being allowed to settle after the addition of alum in the proportion of 6 grains to the gallon; and pinked with permanganate and every effort shall be made to prevent emigrants from drinking the river-water fresh drawn from the side of the vessel. The water shall be pumped directly into the tanks from the river in midstream and clear from all possible risk of pollution from the latrine, etc.

94. Emigrants on board steamers and flats shall not be allowed to draw water from the river over the sides of the vessels and thereby to incur the risk of accidents.

95. Emigrant passengers, as a rule, shall not be required to labour during the passage, but in exceptional cases of urgent necessity only such of them as are considered by the medical officer to be well fitted for work may be employed, provided that such work is free from extraordinary risk to life, and that the master supplies those so employed with extra rations at the rate of two-and-a-half chittaks of rice and half a chittak of dal for each man per diem.

96. The master of every licensed vessel on arrival at every port of inspection shall report to the Magistrate or Civil Surgeon the number of passengers and crew on board, the general state of their health and the number of deaths that occurred on the passage; and omission to do so shall entail prosecution or refusal of license to carry emigrants thereafter.

97. The master or the medical officer shall place the way-bill (Form No. 14) of the vessel received from any Embarkation Agent before the inspecting officers at each port of inspection, in order that they may enter their remarks on the several points indicated in such way-bill.

98. The master and the medical officer shall furnish to inspecting officers all necessary information, and shall afford them every facility for the satisfactory discharge of their duties under the provisions of the Act and rules.

99. The master of a licensed vessel at the close of every trip shall prepare in duplicate a mortality return (Form No. 15) in the prescribed form showing the deaths that occurred during the trip among the crew and passengers and shall forward one of these returns to the Embarkation Agent at Goalundo, for information and transmission to the Superintendent of Emigration, Calcutta, and the other to the Director of Public Health, Assam.

100. Every medical officer proceeding in charge of emigrants shall keep a medical diary in the prescribed form (No. 12), as well as a journal of the principal events of the passage, and shall write them up daily and carefully. He shall moreover, on arrival at every inspection station, place the above documents before the inspecting officers for their initials against the latest entry. Every death shall be reported immediately to the master of the steamer, who, if there be no relatives on board entitled thereto, shall take over charge of any property or

money left by the deceased, and shall deliver the same to the Magistrate at the next station, or at the last place of debarkation for disposal.

The master of the steamer shall forward the medical diary direct to the Director of Public Health, Assam, and the journal to the Embarkation Agent, Goalundo, at the close of every trip.

101. The medical officer shall also keep a separate cholera register in the prescribed form (Form No. 13) and shall enter in it all necessary particulars regarding each cholera case that occurs. At the close of each trip on which any case of cholera has occurred this register will be sent to the Director of Public Health, Assam, along with the way-bill and the medical diary. A copy of the cholera register should also be sent to the Embarkation Agent at Goalundo.

102. Every medical officer proceeding in charge of emigrants shall, in case of misconduct or neglect of his duties, or of the requirements of the rules regulating transport, be liable to dismissal on the requisition of any Medical Inspector or other officer so empowered.

105. Whoever commits a breach of any of the rules contained in this chapter shall be punishable with fine which may extend to five hundred rupees.

CHAPTER VII.

Procedure to be followed on the occurrence of cholera and other infectious diseases as small-pox, plague, influenza, etc.

106. (1) In the event of cholera, small-pox, plague, enteric, kala-azar, influenza or other epidemic or infectious disease, occurring in any place of accommodation, or in any rest-house on the emigrant route, the person in charge shall take immediate steps to secure the removal of the emigrant attacked to the hospital approved by Government.

(2) All cases and deaths from infectious diseases shall be notified at once to the nearest local authority.

(3) A separate register shall be maintained for cases and deaths of infectious diseases by the Superintendent of Emigration.

(4) Disinfectants, *e.g.*, (*i*) chlorinated lime, (*ii*) permanganate of potash, (*iii*) cyllin, (*iv*) cyllin soap, (*v*) towels, basins, etc., shall be stored in a sufficient quantity in all places of accommodation and rest houses.

107. When any emigrant has been removed to hospital the person in charge shall carefully disinfect the clothing and belongings of all others occupying the same shed, whether they belong to the infected batch or not, and shall in the meantime supply to each one fresh clothing and shall remove each such one from such shed to the segregation shed which shall be built apart from the rest house, or place of accommodation, and shall provide sufficient accommodation for at least twenty-five per cent. of the number for which a certificate is granted for the rest house. If the segregation shed is not large enough to hold all, the excess number may be accommodated in some vacant shed within the premises of the rest house, or place of accommodation. It is at the discretion of the Superintendent of Emigration or District Magistrate to exempt such place of accommodation, as he may think fit, from the necessity of having a segregation shed.

108. (1) When any shed in which a case of cholera has occurred has been vacated in pursuance of rule 107, the person in charge shall, under the advice and superintendence of the Medical Inspector or Emigration Officer, as the case may be, (*i*) have the wood-work, floor and other parts of the shed thoroughly cleaned and disinfected, (*ii*) freely admit light and air, (*iii*) have the floor dug up and the earth disinfected and burnt or buried. If the floor is a cemented one, however, it will be sufficient to have it thoroughly washed with disinfectants.

(2) Cholera stools or vomit shall not be thrown into or near any tank or well nor kept exposed to flies but shall be immediately disinfected by covering it with quicklime (chlorinated lime) or pouring on them a disinfectant, *e.g.*, cyllin solution.

(3) Soiled clothes shall not be washed in or near any source of water-supply nor exposed to flies nor buried in the ground. They shall be burnt immediately or thoroughly disinfected by keeping them immersed in a disinfectant such as chlorinated lime or cyllin lotion for at least 15 minutes.

(4) The inmates of the rest house shall be provided with water that has been chlorinated or treated with permanganate of potash. All food should be protected from flies.

(5) Wells or tanks situated in the rest house should be chlorinated or treated with permanganate of potash and protected from polution.

(6) Every one who attends a patient or touches his or her body or clothing or assists at his or her funeral shall wash his hands with soap and hot water and a disinfectant such as chlorinated lime solution or cyllin lotion.

109. Contacts of small-pox and plague cases shall, if necessary, in the opinion of the medical officer, be vaccinated or inoculated as the case may be.

110. Emigrants who are detained in a segregation shed under observation shall not leave the precincts of such shed until permitted by the Emigration Officer or Medical Inspector, as the case may be, to do so.

111. The period of segregation shall be three days in cholera, 12 days in small-pox, 8 days in plague and influenza and such period shall be calculated from the time of their admission into the segregation shed, provided that no fresh case occurs during the said period, in which case the days shall begin to count from the date of the last case that may occur during their segregation.

112. No fresh batch of emigrants shall be admitted by the person in charge into any shed in a rest house, or place of accommodation in which a case of infectious disease has broken out—

(*a*) until those attacked are removed to the segregation shed if such be practicable, and all the other emigrants occupying the shed, in which the case occurs, are removed to a segregation shed with the prescribed accommodation required by the rules. The segregation shed to be at such distance from the rest house, or place of accommodation as the Superintendent of Emigration, Emigration Officer or Magistrate thinks necessary;

(*b*) nor until the shed in which cholera and other infectious diseases have broken out and into which it is desired to again admit the emigrants is thoroughly cleaned and disinfected, in the case of depots or rest houses, to the satisfaction of the Medical Inspector or Emigration Officer concerned, whose permission to receive other emigrants into the rest house will not be given until this is done.

113. When cholera and other infectious diseases broke out in a rest house, the person in charge shall advise the persons in charge of the place of accommodation or other rest house along the route, not to despatch more emigrants, or intending emigrants, until the provisions of rule 112 have been fully complied with and until authorised to do so by the Emigration Officer.

114. To each person detained in a segregation shed, the person in charge of the rest house, or place of accommodation, shall supply two meals of any of the three kinds specified in rule 31 according to the choice of each emigrant, every day during the period of segregation.

115. The daily charge for the treatment of each emigrant in hospital shall be eight annas, and shall be paid by the local agent, or the person in charge of the rest house or place of accommodation, from which the emigrant was taken to hospital.

116. The charge for the removal of each sick emigrant from any railway station or from any rest house, or place of accommodation to the hospital, shall be borne by the local agent or garden sardar or person in charge of the emigrant, or of the rest house, or place of accommodation.

117. The person in charge of the rest house, or place of accommodation shall make all necessary arrangements for the disposal, either

by burning or burial, of the bodies of emigrants, or intending emigrants, in his charge who die either in his rest house, or place of accommodation, or in the cholera hospital, and shall defray all expenses connected therewith.

118. Emigrants suffering from slight illness may be attended in their berths; but all serious cases shall be treated in hospital. Patients attacked by cholera or other dangerously communicable disease, with all that belongs to them, shall be instantly and thoroughly isolated from the healthy, and the family or batch in which such disease occurred shall be kept as far apart as possible from the rest of the emigrants without exciting alarm.

The following procedure should be followed when small-pox appears on board a steamer carrying emigrants:—

(*a*) Emigrants or dependents attacked with small-pox shall be at once segregated and landed at the next landing place at which there is a depôt hospital.

(*b*) The medical officer proceeding in charge of emigrants shall at once parade and examine all the emigrants and dependants on board and make out a list of all who have not been already vaccinated or inoculated, or who have not already suffered from small-pox. These emigrants and dependants shall be brought for vaccination before the inspecting medical officer at the next port of inspection reached by the steamer. The number of emigrants and dependants to be vaccinated should be entered in the steamer way-bill.

The medical officer shall, on the appearance of a case of small-pox among the emigrants or dependants, at once vaccinate all of them.

119. Places originally occupied by emigrants removed on account of communicable disease shall be instantly cleaned, and the deck shall be thoroughly scraped and scrubbed with hot sand and disinfecting fluid, and if circumstances admit, fumigation with burning sulphur shall also be carried out.

120. Besides immediate isolation and treatment of the first case of dangerously communicable disease, every precaution shall be taken to prevent an epidemic, strict attention being paid to premonitory symptoms, general and personal cleanliness, careful disinfection and disposal of excreta, disinfection and destruction of infected articles, free ventilation, and care of the healthy.

121. All clothes, blankets, mats, and other things that have been in any way in contact with those suffering from serious communicable disease, or have been soiled or are suspected of infection or impurity, shall be placed in disinfecting fluid and disposed of by burial or burning. They may be burnt in the ship's furnace or on shore according as the medical officer may direct.

122. When cholera or any other disease in an epidemic form breaks out, a special report should be prepared showing, if possible, the probable cause of such an occurrence. The register of cholera cases (Form No. 13) should be carefully filled in, and the medical diary should show the details of treatment of each case from day to day. Every precaution should be taken to prevent the spread of the disease, and its occurrence should be reported to the Magistrate of the first station arrived at thereafter. The Civil Surgeon of the district shall without delay pass on the information to the Civil Surgeon of the next district concerned.

123. (*a*) On the death of an emigrant in a place of accommodation or in a hospital, the local agent or the medical officer in charge of the hospital, as the case may be, shall hand over the property of the deceased emigrant to his or her relatives who may be present. In the absence of any relative or when there is dispute among several relatives, the local agent or the medical officer shall make a list of the property and forward such property with the list to the nearest district or subdivisional Magistrate, who shall, after making enquiry as to the heirs, dispose of the property.

(*b*) When, however, the emigrant dies in a rest house, or during journey by road or rail, the forwarding agents concerned shall make a list of the property as early as may be practicable, and forward such property, together with the list, to the Manager of the garden to which the emigrant was proceeding, for delivery to any relative who may be present, but when there is no relative or there is a dispute among several relatives, the garden Manager shall send the property and the list to the District Magistrate or Subdivisional Magistrate within whose jurisdiction deceased's home is situated for disposal.

124. Whoever commits a breach of any of the rules in this Chapter shall be punishable with fine, which may extend to five hundred rupees.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 26th October 1927.

Summary.—During the week light and scattered showers fell in East and North Bengal, while in West Bengal there was practically no rain. Lack of adequate moisture is retarding the growth and development of standing crops, especially in the districts of Murshidabad, Burdwan, Birbhum, Bankura, Dinajpur, Bogra and Malda; elsewhere the condition of crops is reported to be generally fair Preparation of lands for and sowings of spring crops are progressing favourably. Distress continues to prevail in parts of Birbhum, Dinajpur and Malda. Test relief works continue at Nalhati in Birbhum where 180 persons worked on the 23rd instant and also at Patnitola and Porsha police-stations in Dinajpur where 1,286 persons were employed. *Rabi* seeds on loan are being distributed in Malda and Dinajpur by the Collectors assisted by the Agricultural Department The average price of common rice for the province has slightly risen as compared with that of the previous week.

H. D. BANERJI, for *Director of Agriculture, Bengal.*

DACCA, *the 29th October 1927.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for September 1927.

I. **Character of the season.**—During the month under review, the rainfall was above the normal in the Chittagong Division and in parts of the Rajshahi, Dacca and Presidency Divisions. Elsewhere the fall was below the normal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy seedlings and harvesting of autumn crops were nearly over, although insufficiency of water for the steeping of jute was still reported, especially from some West and North Bengal districts. Weeding of winter paddy continued. Preparation of lands for, and rearing of, tobacco seedlings in nurseries commenced under favourable conditions in the latter part of the month.

III. **State of standing crops.**—The state of standing crops was generally fair, except in parts of Birbhum, Bankura, Murshidabad, Burdwan, Rajshahi, Dinajpur, Malda and Bakarganj, where the condition of paddy crops was reported to be poor for lack of adequate rain.

IV. **Prospects and probable outturn.**—The prospects of deep-water paddy, sugarcane and other standing crops were reported to be generally satisfactory, while those of transplanted paddy have suffered from lack of sufficient rain in some West and North Bengal districts. The outturn of autumn paddy was estimated at 85 per cent. and that of winter paddy at 79 per cent. of the normal.

V. **Damage to standing crops.**—Damage to standing crops by drought and insect-pests was reported from some West Bengal districts.

VI. **Condition of agricultural stock.**—Cattle-disease was reported only from six districts of the province and from the State of Cooch Behar. Outbreak of rinderpest was reported from the colonization area in the Patuakhali subdivision of Bakarganj during the second week of the month.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be sufficient during the month, except in parts of Faridpur and in the Kandi and Jangipur subdivisions of Murshidabad, where some insufficiency was reported.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in four districts, fell in six and remained stationary in the rest of the province. It varied from 7 seers per rupee in the Chittagong Hill Tracts to 4½ seers per rupee at Mymensingh.

IX. **Condition of agricultural population.**—The condition of agricultural population was on the whole fair, except in parts of Birbhum, Dinajpur and Malda, where distress prevailed owing to a partial failure of winter rice crop. Test relief works were opened and agricultural loans were being distributed.

Receipts.—The estimate of receipts for the year is placed at Rs. 4,29,383, which is the same as the revised estimate of last year. The budget estimate of last year was Rs. 4,37,938. The estimate of receipts from the East Indian Railway for the year is placed at Rs. 3,30,000 against the budget and revised estimates of the same amount for the preceding year. The Bengal-Nagpur Railway again contributed Rs. 26,000 towards the up-keep of the bridge during the year 1927-28.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 2nd November 1927.

Summary.—The week was practically rainless excepting light and scattered showers in parts of East Bengal and of the districts of Murshidabad, Jessore and Bogra. Preparation of lands for and sowings of spring crops are progressing under favourable condition. The prospects of standing crops are reported to be generally fair except in parts of West and North Bengal where the condition of winter paddy is poor as a result of lack of timely rain. Distress continues to prevail in parts of Birbhum, Dinajpur and Malda. Test relief works continue at Nalhati in Birbhum where 170 persons worked on the 30th October and also at Patnitola and Porsha police-stations in Dinajpur where 1,248 persons were employed on the 25th idem. The average price of common rice for the province has fallen by about 0·27 per cent. as compared with that of the previous week.

(*e*) A loan of Rs. 1,20,000 bearing interest at 5½ per cent. per annum will be taken by the municipality from Government to meet the partial cost of the scheme. It will be repaid by forty half-yearly instalments of Rs. 5,087-1-8 each, twenty years being required to repay the loan in full.

(*f*) The total annual additional charge on account of the maintenance of the scheme is estimated at Rs. 4,000 and that on account of the repayment of the loan of Rs. 1,20,000 is Rs. 10,174-3-4. This expenditure will be met from the proceeds of the water-rate. The amount of Rs. 14,622 now being paid annually for the repayment of the present water-works loan of Rs. 2,00,000, which will be paid in full by 1930, will be reserved for the recurring expenditure in connection with the proposed scheme.

(*g*) The water-rate will be levied as heretofore at the rate of 2 per cent. on the annual valuation of holdings having no water connection and at the rate of 5 per cent. on the annual valuation of holdings having water connection. The water-rate will be increased, if necessary, for the repayment of the proposed loan. There will be substantial increase of revenue in the shape of water-rate even at the present rate from additional house connections that will be allowed after the completion of the proposed scheme.

(*h*) The average incidence of such water-rate per head of the population in this municipality is annas 11-2.

2. The said scheme will be taken into consideration on or after the 20th January 1928, and any objection or suggestion with regard thereto, which may be received by the undersigned before that date, will be duly considered.

C. Morrison ... Our World of Human Geography.

The World, with fuller treatment of India (Longmans' Geographical Series for India, Book II).

F. D. Unstead ... The Practical Geography, Parts I and II.
B. C. Wallis ... Macmillan's Geography Exercise Book (India).
A. Bose ... Outlines of Geography.

Ideal Advanced Regional Geography published by the Grant Educational Company, Limited.

The following books are recommended for the use of teachers :—

Blandford ... The Rudiments of Physical Geography for the use of Indian Schools.
Frew ... A Regional Geography of the Indian Empire (Blackie and Son).
Wallis ... The Teaching of Geography (Cambridge University Press).
O'Malley ... Bengal, Behar and Orissa, Sikkim (Macmillan and Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower class of schools :—

A. F. Frye ... The Child and Nature.

[*N. B.*—Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I. (The total cost need not exceed Rs. 65.)

(1) A measuring tape and metre scale and foot-ruler.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4" or 6" =1 mile.
(7) A map of the district in which the school is situated 1"=1 mile.
(8) A coloured map of the province
(9) A coloured political map of India.
(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweild's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.
(4) A small collection of typical rocks, in particular, those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic lantern and slides.

(1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutt, Head Pandit, Habigunj Government Girls' School, Sylhet, and sold for Rs 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depot for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Phillip and Son is good and up to date ; so also are the Geographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps; also ordinary and relief maps of the province.

Babu L. M. Basu, the Drawing Master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps showing river systems and a few towns, published by the same Company, are excellent for class use.

The autograph hand-maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweild's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Hornu Hachette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans Green and Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides specially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.]

Elementary Mechanics.

The following books are recommended:—

A. N. Sen	...	Elementary Mechanics.
Briggs and Bryan	...	Matriculation Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination:—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman steelyard.
Lecture apparatus for experiment on movements.
George's New Atwood's Machine.
Stop watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single Brass Pulleys.
2 Triple Brass Pulleys.
Weston Differential Pulleys Blocks (½ ton).
16 feet of Chain at 6*d*, per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of gramme weights (200 grams to 1 mgr.).
2 Composition ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

(*3*) Nothing in this section shall prevent the Local Government from appointing any number of officers not exceeding three, not more than one of whom shall be a person holding any forest-office except as aforesaid, to perform the duties of a Forest Settlement Officer under this Act.

Bar of accrual of forest-rights.

5. After the issue of a notification under section 4, no right shall be acquired in or over the land comprised in such notification, except by succession or under a grant or contract in writing made or entered into by or on behalf of Government or some person in whom such right was vested when the notification was issued; and no fresh clearings for cultivation or for any other purpose shall be made in such land except in accordance with such rules as may be made by the Local Government in this behalf.

Proclamation by Forest Settlement-officer.

6. When a notification has been issued under section 4, the Forest Settlement-officer shall publish in the local vernacular in every town and village in the neighbourhood of the land comprised therein, a proclamation—

(*a*) specifying, as nearly as possible, the situation and limits of the proposed forest ;

(*b*) explaining the consequences which, as hereinafter provided, will ensue on the reservation of such forest ; and

(*c*) fixing a period of not less than three months from the date of such proclamation, and requiring every person claiming any right mentioned in section 4 or section 5 within such period either to present to the Forest Settlement-officer a written notice specifying or to appear before him and state, the nature of such right and the amount and particulars of the compensation (if any) claimed in respect thereof.

Inquiry by Forest Settlement-officer

7. The Forest Settlement-officer shall take down in writing all statements made under section 6, and shall at some convenient place inquire into all claims duly preferred under that section, and the existence of any rights mentioned in section 4 or section 5 and not claimed under section 6 so far as the same may be ascertainable from the records of Government and the evidence of any persons likely to be acquainted with the same.

Powers of Forest Settlement-officer

8. For the purpose of such inquiry, the Forest Settlement-officer may exercise the following powers, that is to say :—

(*b*) the powers of a Civil Court in the trial of suits.

Extinction of rights.

9. Rights in respect of which no claim has been preferred under section 6, and of the existence of which no knowledge has been acquired by inquiry under section 7, shall be extinguished, unless, before the notification under section 20 is published, the person claiming them satisfies the Forest Settlement-officer that he had sufficient cause for not preferring such claim within the period fixed under section 6.

Treatment of claims relating to practice of shifting cultivation.

10. (*1*) In the case of a claim relating to the practice of shifting cultivation, the Forest Settlement-officer shall record a statement setting forth the particulars of the claim and of any local rule or order under which the practice is allowed or regulated, and submit the statement to the Local Government, together with his opinion as to whether the practice should be permitted or prohibited wholly or in part.

(*2*) On receipt of the statement and opinion, the Local Government may make an order permitting or prohibiting the practice wholly or in part.

(*3*) If such practice is permitted wholly or in part, the Forest Settlement-officer may arrange for its exercise—

(*a*) by altering the limits of the land under settlement so as to exclude land of sufficient extent, of a suitable kind, and in a locality reasonably convenient for the purposes of the claimants, or

(*b*) by causing certain portions of the land under settlement to be separately demarcated, and giving permission to the claimants to practise shifting cultivation therein under such conditions as he may prescribe.

(4) All arrangements made under sub-section (3) shall be subject to the previous sanction of the Local Government.

(5) The practice of shifting cultivation shall in all cases be deemed a privilege subject to control, restriction and abolition by the Local Government.

Power to acquire land over which right is claimed.

11. (1) In the case of a claim to a right in or over any land, other than a right-of-way or right of pasture, or a right to forest-produce or a water-course, the Forest Settlement-officer shall pass an order admitting or rejecting the same in whole or in part.

(2) If such claim is admitted in whole or in part, the Forest Settlement-officer shall either—

(i) exclude such land from the limits of the proposed forest; or

(ii) come to an agreement with the owner thereof for the surrender of his rights; or

(iii) proceed to acquire such land in the manner provided by the Land Acquisition Act, 1894. I of 1894.

He shall also record whether the timber or other forest produce obtained by the exercise of the rights claimed may be sold or bartered.

Exercise of rights admitted.

15. (1) After making such record the Forest Settlement officer shall, to the best of his ability, and having due regard to the maintenance of the reserved forest in respect of which the claim is made, pass such orders as will ensure the continued exercise of the rights so admitted.

(2) For this purpose the Forest Settlement-officer may—

(b) so alter the limits of the proposed forest as to exclude forest-land of sufficient extent, and in a locality reasonably convenient, for the purposes of the claimants ; or

(c) record an order, continuing to such claimants a right of pasture or to forest-produce, as the case may be, to the extent so admitted, at such seasons, within such portions of the proposed forest, and under such rules, as may be made in this behalf by the Local Government.

Provided that the Local Government may establish a Court (hereinafter called the Forest Court) composed of three persons to be appointed by the Local Government, and, when the Forest Court has been so established, all such appeals shall be presented to it.

Appeal under section 17.

18. (1) Every appeal under section 17 shall be made by petition in writing, and may be delivered to the Forest Settlement-officer, who shall forward it without delay to the authority competent to hear the same.

(2) If the appeal be to an officer appointed under section 17, it shall be heard in the manner prescribed for the time being for the hearing of appeals in matters relating to land-revenue.

(3) If the appeal be to the Forest Court, the Court shall fix a day and a convenient place in the neighbourhood of the proposed forest for hearing the appeal, and shall give notice thereof to the parties, and shall hear such appeal accordingly.

I of 1894

(*2*) The owner of any forest or land comprised in any notification under section 35 may, at any time not less than three or more than twelve years from the date thereof, require that such forest or land shall be acquired for public purposes, and the Local Government shall acquire such forest or land accordingly.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 19th September, 1927 :—

L. A. BILL NO. 44 OF 1927.

A Bill further to amend the Inland Bonded Warehouses Act, 1896, for certain purposes.

WHEREAS it is expedient further to amend the Inland Bonded Warehouses Act, 1896, for the purposes hereinafter appearing ; It is hereby enacted as follows :— VIII of 1896

Short title

1. This Act may be called the Inland Bonded Warehouses (Amendment) Act, 192 .

Amendment of section 4, Act VIII of 1896

2. (*1*) In sub-section (*1*) of section 4 of the Inland Bonded Warehouses Act, 1896 (hereinafter referred to as the said Act), VIII of 1896

(*a*) the words "with the previous sanction of the Local Government" shall be omitted ; and

(*b*) the following proviso shall be added, namely :—

"Provided that, where a warehouse is to be wholly or partly in the charge of officers serving under a Local Government, it shall not be appointed or licensed as an inland bonded warehouse until the Local Government has signified its assent to such appointment or license."

(2) In sub-section (2) of the same section, the following words shall be added at the end, namely :—

"and, if the owner so desires, as if goods, in respect of which the procedure laid down in sections 90, 91 and 92 of the said Act has been complied with, were goods already warehoused at a warehousing port within the meaning of section 105 of the said Act."

Amendment of sections 5 and 7, Act VIII of 1896

3. In sections 5 and 7 of the said Act, for the words "Local Government" the words "Chief Customs-authority" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

It is the practice to allow goods intended for warehousing at an inland bonded warehouse to be removed there from the wharf or ship's side direct. It has been pointed out that under the law as it stands, strictly interpreted, no goods ought to be removed to an inland bonded warehouse unless they had previously been deposited in a warehouse at a customs-port; to enforce this would be a useless and expensive formality. It is, therefore, proposed that the existing practice should be regularised.

2. Some inland bonded warehouses are managed by officers of the Local Governments, others by officers directly subordinate to the Central Board of Revenue. With respect to the latter class, it is proposed, in pursuance of the principle of the Central Board of Revenue Act, 1924, that the Local Governments should be divested of authority, their authority in other cases being maintained by the provision that the Chief Customs-authority (*i.e.*, the Central Board of Revenue) must obtain the assent of the Local Government before appointing or licensing any inland bonded warehouse.

CALCUTTA GAZETTE, NOVEMBER 16, 1927. 2003

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for October 1927.

I. **Character of the season.**—During the month under review, the rainfall was decidedly below normal throughout the Presidency except in the districts of Jalpaiguri, Mymensingh, Chittagong and the Chittagong Hill Tracts, and in the Tripura State, where it was in excess of the normal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for the spring crops and the sowings, especially of the early varieties, continued under favourable conditions. Harvesting of autumn paddy was almost over.

III. **State of standing crops.**—The rainfall of the month, an important factor in the development of winter paddy, being defective, materially affected the condition of the late transplanted crop, specially in parts of Murshidabad, Burdwan, Birbhum, Bankura, Dinajpur, Bogra and Malda.

IV. **Prospects and probable outturn.**—The prospects of deep-water paddy were satisfactory, while those of transplanted paddy were generally fair except in parts of West and North Bengal, where the outturn is anticipated to be poor. The outturn of the sugarcane crop is expected to be about 80 per cent. of the normal.

V. **Damage to standing crops.**—Damage to *aman* paddy by insects in parts of the Chittagong district was reported during the third week of the month.

VI. **Condition of agricultural stock.**—The condition of livestock was generally fair. Sporadic cases of cattle-disease were, however, reported from eleven districts.

VII. **Failure of pasturage and fodder.**—The supply of fodder was generally sufficient except in parts of Murshidabad, Birbhum and Faridpur, where some insufficiency was reported.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in six districts, fell in six and remained stationary in the rest of the province. It varied from 4 seers 14 chitaks per rupee at Bogra to 7 seers in the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of the agricultural population was on the whole fair, except in parts of Birbhum, Dinajpur and Malda, where distress continues to prevail owing to a partial failure of the winter rice crop. Test relief works were opened and agricultural loans continued to be distributed. *Rabi* seeds were being distributed on loan by the Collectors assisted by the Agricultural Department.

Director of Agriculture, Bengal.

Test relief works continue at Nalhati and Tarapur in Birbhum where 48 and 220 persons respectively worked on the 6th November and also at Patnitola and Porsha police-stations in Dinajpur where 988 persons were employed on the 1st idem. The test relief work has been opened at Nachole thana in Malda where 800 men are working and also at Sonamukhi police-station in the district of Bankura on the 31st October.
